A Message to Year 10 students

Dear Parents/Caregivers and Year 10 students,

You are about to enter into the last stage of your school journey and at Warrawong High School we believe that choosing subjects for your HSC should not only be a family decision but a whole school decision.

While selecting your subjects for Years 11 and 12 is the most important school decision you've made since choosing which high school to attend, we want to support you as best that we can. Therefore, we have put into place a number of mechanisms to help you get the right mix of subjects that will support your future endeavours beyond school.

Year 10 students will undertake an extensive process to support their decision making. Year 10 students will also engage in a year meeting regarding NESA compliance, the subject selection process at WHS and the different pathways available to them. Year 10 students will be participating in Subject Taster lessons during Week 4. During Week 6, each Year 10 student will be individually interviewed. Mrs Goldspink (Deputy Principal), Mrs Napier (Head Teacher Sec. Studies) and Mr Cattle (Careers Advisor) will be conducting these interviews in order to provide support in assisting each student to make the most informed decisions regarding subject selections. Parents/Carers will be contacted by the school to finalise the decisions.

Warrawong High School is a small school, yet we believe in offering as broad a curriculum as we can to meet the needs of our students. We also encourage students to attend TAFE as well as accessing Distance Education as a way of them getting the best possible pattern of study.

We have experienced, talented and enthusiastic teachers at Warrawong High School who provide engaging learning experiences within a positive classroom environment. Our Learning Support Team has effective processes to identify and support students of all abilities through to the completion of their HSC.

When making decisions about which courses to choose for your HSC, please keep the following in mind:

ABILITIES

Choose subjects in which you are capable of doing well. There is no point in choosing a subject which is either too difficult for you or will not challenge you.

CAREER ASPIRATIONS AND NEEDS

Be realistic about your career choices, and choose subjects which you genuinely need for your chosen career direction.

INTERESTS

Choose subjects which genuinely interest you. Remember that you will be undertaking these subjects for two years.

DO I SATISFY THE COURSE PREREQUISITES?

Yours sincerely,

Mrs Christine Goldspink
Deputy Principal

Mr Brad Hughes
Principal

Information about the HSC

The Higher School Certificate (HSC):

- Is the culmination of a student's school career.
- Is the highest educational award that can be achieved at a secondary school in NSW.
- Reports student achievement in terms of a **standard** achieved in individual courses.
- Presents a **profile** of student achievement across a broad range of subjects.
- Offers you a full range of courses complementing individual abilities, interests and goals.
- Engages students in courses that are linked to further education and training.
- Includes extension courses (including undergraduate university courses) that enable students to undertake more in-depth study in areas of special interest.
- Includes Vocational Education and training courses that count towards the HSC and will also lead to qualifications recognised across a range of industries.
- Includes Life Skills courses for students with special education needs.

Please note that the information contained in this booklet is current and accurate as at July, 2019.

HSC Minimum Standards – Reading, Writing and Numeracy

From 2020, only students who meet the HSC minimum standard will receive a Higher School Certificate testamur.

Students will be provided with two (2) opportunities per year to pass the standard identified below.

To show they meet the standard students need to achieve:

- Level 3 or 4 in the online reading test.
- Level 3 or 4 in the online writing test.
- Level 3 or 4 in the online numeracy test.

Some students with disability may be exempt from meeting the minimum standard to receive their HSC testamur.

HSC MINIMUM STANDARD

FACT SHEET

You need reading, writing and maths skills to be successful in everyday life after school. That's why you're required to show a minimum standard of literacy and numeracy to receive the Higher School Certificate (HSC) from 2020.

To check you have the basics right, you need to sit short **online tests of reading, writing and maths for everyday life.**

You get two chances a year to pass each of the tests from Year 10 until a few years after the HSC. Your school will help you decide when you are ready to take each test.

If you pass the online tests of basic reading, writing and numeracy skills you will show you've met the HSC minimum standard.

HOW IS THE STANDARD SET?

The standard is set at level 3 of the Australian Core Skills Framework (ACSF), which means students will have the basic reading, writing and maths skills needed for everyday tasks and future learning after school. It includes skills for tasks such as:

- ✓ Following safety instructions in equipment manuals
- ✓ Understanding a mobile phone plan
- ✓ Writing a job application
- ✓ Creating a personal weekly budget.

The HSC minimum standard is part of a plan to ensure students have essential literacy and numeracy skills.

All My Own Work

HSC: All My Own Work is a mandatory program designed to help HSC students to follow the principles and practices of good scholarship.

It consists of five modules:

- Scholarship Principles and Practices
- Acknowledging Sources
- Plagiarism
- Copyright
- Working with Others

Students need to complete all of the All My Own Work modules to be enrolled in the Year 11 Preliminary Course.

Students will complete All My Own Work in Year 10 during Term 4, 2020 in consultation with their Year Advisor. If the student is absent during the teaching of the modules, they must notify their Year Advisor as soon as they return to school.

Students Online Account

Students Online is your source for important information about your study from Year 10 to the HSC.

Once you have logged into Students Online:

- check your confirmation of entry to ensure your name, courses, address, email and phone number are correct.
- inform your school of any name changes or course concerns.

You can change your address, email and phone number in the personal details section.

You can download your free PDF credentials in the Results Services section.

You can find helpful information in My Account under Manuals and Guides.

By activating this account students will be able to receive significant information leading to their HSC and access their results online after they leave school. Students will be encouraged to activate their Students online account during the Subject Selection interviews.

What type of course can I select?

There are different types of courses that you can select in Years 11 & 12.

Board Developed Courses

The NSW Education Standards Authority (NESA) develops these courses. There is a syllabus and support documents for each course that contains:

- The course objectives, structure, content and outcomes.
- Specific course requirements.
- Assessment requirements.
- Sample examination papers and marking guidelines.

All students entered for the HSC who are studying Board Developed Courses follow these syllabuses.

These courses are examined externally at the end of the HSC course and can count towards the calculation of the Australian Tertiary Admission Rank (ATAR).

Category A Courses	Category B Courses
May be included in the calculation of a student's Australian Tertiary Admission Rank (ATAR)	No more than 2 units of Category B courses can be included in the calculation of a student's ATAR
Compulsory HSC Examination for most courses	Optional HSC examination for some courses
	Include VET Curriculum Framework courses and have compulsory work placement.

Content Endorsed Courses

Content Endorsed courses are designed to cater for areas of special interest not covered by the Board Developed courses.

Some are designed by NESA while some are designed by organisations such as TAFE. There is no external examination for any Content Endorsed course. These courses count towards the Higher School Certificate and appear on the Record of Achievement.

Content Endorsed courses are not counted in the calculation of the ATAR.

Vocational Education and Training (VET) Courses – either Board Developed or Board Endorsed

Vocational Education and Training (VET) courses are offered as part of the Higher School Certificate. They enable students to study courses that are relevant to industry needs and have clear links to post-school destinations.

These courses allow students to gain both Higher School Certificate qualifications and accreditation with industry and the workplace as part of the Australian Qualifications Framework (AQF). The national framework is recognised across Australia and helps students to move easily between various education and training sectors and employment.

These courses each have a specific workplace component and a minimum number of hours students spend in the workplace or a simulated workplace at school. Students receive special documentation showing the competencies gained.

Some of these courses will be delivered by schools, while others will be delivered by TAFE or other providers.

Life Skills Courses as part of a Special Program of Study

Stage 6 (Years 11 and 12) Life Skills courses are available for students following a Special Program of Study for the Higher School Certificate.

The school's Learning Support team will make decisions about placements in Life Skills courses. Participation in a Special Program of Study will be based upon an individual Learning Support Plan that will occur for both the Preliminary and HSC years.

Life Skills courses will have Board Developed status and can be used in place of other Board Developed Courses to meet requirements for the award of the Higher School Certificate. Each Life Skills course comprises a 2 unit Preliminary course and a 2 unit HSC course.

There is no ATAR available for students completing Life Skills courses.

Board Developed Courses	Board Endorsed Courses
HSC examination except for: <ul style="list-style-type: none"> • optional examination in English Studies and Mathematics Standard 1 and VET Curriculum Framework courses • all Life Skills courses 	No HSC examination – school-based assessment only
May be included in the calculation of a student's Australian Tertiary Admission Rank (ATAR).	Not included in the calculation of a student's Australian Tertiary Admission Rank (ATAR).
Includes some Vocational Education and Training (VET) courses.	Includes some Vocational Education and Training (VET) courses.
Includes Life Skills courses.	

Requirements for the award of the HSC

Both the Year 11 and Year 12 pattern of study must include:

- 2 units of compulsory English
- at least 6 units of Board Developed Courses
- at least 3 courses of 2 units value or greater
- at least 4 subjects (including English)
- a maximum of 6 units of Science may be included in the Year 11 pattern of study.
- a maximum of 7 units of Science may be included in the Year 12 pattern of study.

Additional information

Assessment expectations are clearly outlined in the Warrawong High School Assessment Policy Student Handbook 2020.

Warrawong High School students are expected to maintain 12 units of courses at school throughout Year 11 and 12. Variation to this will be determined in consultation with the Deputy Principal, Head Teacher Secondary Studies and Careers Advisor.

The New South Wales Education Standards Authority (NESA) Website:

<https://www.educationstandards.nsw.edu.au/wps/portal/nesa/home> contains information about courses and the HSC.

If you wish to receive the Australian Tertiary Admission Rank (ATAR), you must study a minimum of 10 Board Developed units in the HSC Course. The booklet, *Steps to Uni for Year 10 Students*, published by UAC and available from the Careers Adviser, contains important information about entry to university courses, course prerequisites and other information to assist your choice of HSC courses for study in Years 11 and 12 in preparation for university entry.

If you do not wish to receive an ATAR, the rest of your courses may be made up from Board Endorsed Courses once you have studied six units from Board Developed Courses.

Important terms used in the HSC

What are units?

All courses offered for the HSC have a unit value. Subjects may have a value of 1 unit or 2 units. Most courses are 2 units. Each unit involves class time of approximately 2 hours per week (60 hours per year). In the HSC each unit has a value of 50 marks. Hence a 2 unit course has a value of 100 marks.

2 units = 4 hours per week (approximately 120 hours per year)

= 100 marks

Extension Courses

Extension study is available in a number of subjects. Extension courses are 1 unit courses which build on the content of the 2 unit course. Extension courses require students to work beyond the standard of the 2 unit course, and are available in English and Mathematics.

English and Mathematics Extension Courses are available at Preliminary and HSC level. Students must study the Preliminary extension course in these subjects before proceeding to the two HSC extension courses (Extension 1 and Extension 2). The Extension 2 course requires students to work beyond the standard of the Extension 1 course.

HSC extension courses in subjects other than English and Mathematics are offered and examined in Year 12 only.

Extension courses are generally timetabled outside normal school hours, either before or after school. Students nominating to study a subject at an extension level need to be aware of the additional commitment of time required to succeed in these more challenging courses.

Preliminary Course

Subjects in the senior years have been divided into the Preliminary Course (Terms 1, 2 and 3 in 2020) and the HSC course (Term 4 in 2020 and Terms 1, 2 and 3 in 2021).

A Preliminary course must be satisfactorily completed before students are able to begin the HSC course.

What are exclusions?

In general, students may not concurrently study two courses in the one subject area. The exclusions that are most likely to apply to students at our school are in Investigating Science that can be studied with any other Science course in the Preliminary year, up to 6 units. However, there are other potential exclusions that will need to be discussed during the subject selection process.

Australian Tertiary Admission Rank (ATAR)

The Australian Tertiary Admission Rank (ATAR):

- is for students wishing to gain a place at a university.
- is a rank NOT a mark.
- provides information about how a student performs overall in relation to other students.

ATAR Rules

Rule 1 – Eligibility for an ATAR

To be eligible for an ATAR a student must complete at least ten units of Board Developed HSC courses (including at least two units of English, **excluding** English Studies) of ATAR courses including at least eight units of Category A courses.

The Board Developed courses must include at least three courses of two units or greater and at least four subjects; see below.

Rule 2 – Calculation of the ATAR

The ATAR will be based on an aggregate of scaled marks in ten units of Board Developed courses comprising of:

- The best two units of English
- The best eight units from the remaining units, subject to the provision that no more than two units of Category B courses be included.

Important notes:

- A subject is the general name given to an area of study. A course is a branch of study within a subject. A subject may have several different courses, for example, with the subject English the courses will include English Standard, English Advanced, HSC English Extension 1, EAL/D, English Studies etc.
- Students who are eligible for an ATAR under Rule 1 need to have completed at least eight units of Category A courses for their ATAR to be based on ten units.

Accumulation - Pathways

Students may spread out their HSC studies over a number of years. Units may be accumulated over a total time span of up to five consecutive years.

Students who are accumulating the HSC will receive a Result Notice for each calendar year of study. These cumulative transcripts will record all Preliminary and HSC courses satisfactorily completed, including repeat attempts.

On completion of the accumulation, all HSC pattern of study requirements must have been met for both the preliminary and HSC courses. They do not need to be met for each calendar year of accumulation.

Students who choose to accumulate must be aware that some courses may be discontinued during the period of accumulation. In such cases, students may need to commence alternative courses to fulfil Higher School Certificate requirements. This is designed to cater for the needs of the growing numbers of mature age and accelerated students. It also enables students to repeat courses, where needed, as well as studying part-time, if desired.

Course Selection Considerations

It is important to choose senior subjects carefully as your decisions may affect the types of occupations you choose in the future, your success at school and your feelings about school.

When planning your HSC pattern of study consider your:

- Abilities.
- Interests/Motivation.
- Career aspirations and needs.
- Syllabus requirements - Practical/Major work components.
- Subject combinations.
- Other commitments.

It is important and expected that students engage in conversations with their parents, Deputy Principal, Head Teacher Secondary Studies, Career's Advisor, Year Advisor and teachers when planning their HSC pattern of study.

You may also wish to access:

- Australia's National Career Information Service, called myfuture, at www.myfuture.edu.au and
- Jobguide website at www.jobguide.dest.gov.au

Do Not:

1. Choose subjects based on your friends' choices or on whom you think the teacher might be.
2. Approach your subject selection with the attitude that you can "try" subjects and change them if you do not like them.
3. It is wiser to find out as much as you can before you select. Those students undertaking a TVET course must maintain 14 units until the completion of Term 3.
4. Play the scaling game. You will not be "scaled up" just for choosing a "hard" subject. Your scaled mark for any course relates to your performance in that course and the quality of the other candidates in that course. The scaling process will not advantage you.
5. Choose subjects based on "rumours", because of excursions, you believe that the course is a "bludge" subject or you thought it was a girls or boys' only course.
6. Choose an unrealistic or unachievable pattern of study that does not reflect your skills or ability.

Confirmation of Entry

Students will receive a NESAs **Confirmation of Entry** from the school.

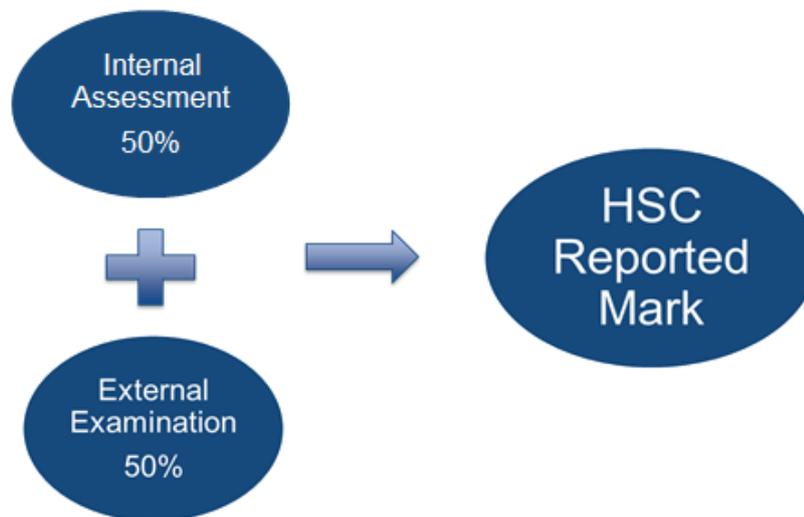

Before signing the Confirmation of Entry each year (Years 10, 11 and 12) students should **check that they are:**

- enrolled in the correct courses
- eligible for:
 - Year 10: Record of School Achievement
 - Year 11: Stage 6 Preliminary
 - Year 12: HSC

The Confirmation of Entry reflects the subjects the student will receive results for at the end of each course.

If you have any concerns about your Confirmation of Entry, you must inform the Deputy Principal or the Head Teacher Secondary Studies as soon as possible.

Assessment and Reporting

- The HSC reports provide you with detailed descriptions of the knowledge, skills and understanding you have attained in each subject.
- The syllabuses, along with assessment and examination information and a performance scale will be used to describe your level of achievement.
- For every HSC Board Developed Course (except VET courses) you will receive a Course Report showing your marks, the Performance Scale and the band descriptions for that course. A graph showing the state-wide distribution of marks in the course is also shown.

Information for Students Undertaking School Delivered VET Courses

The Wagga Wagga Registered Training Organisation (RTO) 90333 is responsible for Vocational Education and Training (VET) courses delivered in NSW public schools.

VET courses offer dual accreditation and students who successfully complete these courses will gain unit credit toward their Higher School Certificate (HSC) and a nationally accredited qualification, Certificate or Statement of Attainment.

NSW Education Standards (NESA) Board Developed Industry Curriculum Framework VET courses contribute to an Australian Tertiary Admission Rank (ATAR).

Students must complete a 240 hour Board Developed Industry Curriculum Framework VET course to be eligible to sit the HSC examination for this course. Only ONE Category B course can be used towards an ATAR.

NESA Board Endorsed VET Courses do not have a HSC Examination cannot be used towards an ATAR.

Refer to the NSW Education Standards Authority website (NESA) for VET, any exclusions, rules and procedures.

Optional External HSC Examination

Students who sit for the optional HSC exam will have an estimate mark submitted to the NSW Education Standards (NESA) by the school. This estimate mark will only be used in the event of a claim of misadventure.

Assessment Procedures

Assessment of students in VET courses is competency based. This means that evidence of achievement of competency is produced by the student, collected by an assessor and judged against agreed industry standards. Assessments include those practical in nature and reflect the type of tasks that would be required to be performed in the workplace and written tasks that assess knowledge and understanding of concepts related to the course.

Evidence of competence can be collected by the assessor in a variety of ways. Like all other HSC courses, some of the evidence collected will be through formal assessment tasks or events such as project work, presentation of portfolios and practical demonstrations. Students are deemed either competent or not competent following an assessment.

No grades or marks are awarded through competency based assessments. The school will provide an assessment scope and sequence for each VET course.

Student Selection, enrolment and induction procedures

Stage 6 VET courses are available to all students in years 11 and 12 upon the completion of a RTO VET Enrolment Form with a validated Unique Student Identifier (USI). Year 9 do NOT undertake "early commencement/acceleration" of Stage 6 VET courses. Your school will seek RTO advice in regards to individual student learning plans.

Students must complete a VET induction in class at the commencement of the course. Students sign a student declaration to confirm that they have completed the induction as part of their enrolment procedures. This induction will include information regarding the specific course they are studying, recognition of prior learning procedures (RPL), credit transfer (CT), assessment procedures, and information regarding student rights and responsibilities. Students are able to refer to the RTO's Student Guide for VET process and procedure information.

Fees and charges

Some VET courses attract a course cost. Where a course cost exists it will be indicated on the course information page. More detailed information regarding fee charges and refund policies will be provided in the course induction and on the course information sheet.

VET Enrolment

All students enrolled in a VET course must complete the RTO VET Enrolment Form as part of the subject selection process. LLN testing is incorporated in the pre-enrolment process.

Freedom of Information and Privacy

Students' rights to privacy and access to information are outlined in the Freedom of Information and Privacy policy. All staff members are required to abide by the Department's Privacy Code of Practice.

Credit Transfer and Recognition of Prior Learning (RPL)

Credit transfer (CT) is available to students who produce evidence of achievement of competency from another RTO. Schools will seek RTO advice on how this CT evidence is to be validated. RPL may also be available to students who can provide sufficient evidence of skills attained previously. RPL applications must be completed on enrolment or before training. Students seeking RPL should follow the RPL procedure outlined in the RTO Student Guide.

Work Placement

Seventy (70) hours of work placement per 240 hours of study is a mandatory HSC component of many VET courses. Failure to complete mandatory work placement will mean that a student will receive an "N" determination for the subject and as a result may be ineligible for the award of the HSC. Students will be provided with additional work placement information in the course induction. Work placement induction will also be undertaken to assist students to be work ready before the first work placement. Students are required to complete a Work Placement Journal during work placement.

School Based Apprenticeships and Traineeships (SBATs)

The SBAT Program provides students with the opportunity to include a recognised VET qualification within their HSC and to combine this with paid work.

SBATs must complete formal training that is delivered by a RTO. The formal training must meet the requirements of the relevant Vocational Training Order (VTO) for that apprenticeship or traineeship vocation, and lead to a nationally recognised qualification. The formal training component of a SBAT will contribute unit credit towards the HSC.

Students wanting to find out more information regarding SBATs should contact the school's careers adviser. The following website is also a key source of information regarding SBATs: www.sbatinnsw.info

Unique Student Identifier

All students undertaking Nationally Recognised Training delivered by a Registered Training Organisation must have a Unique Student Identifier (USI) on enrolment. The USI provides easy access through an online account to all VET training records and results throughout life.

Externally Delivered VET (EVET)

Externally Delivered Vocational Education and Training (EVET) courses are delivered by TAFE or other VET Providers. EVET allow school students to gain workplace skills and experience to get a head-start on their career.

EVET allows you to:

- gain practical, work-related skills to enhance your future employment opportunities.
- complete units that count towards your Higher School Certificate (HSC).
- start or complete a nationally-recognised VET qualification while still at school.
- receive a nationally-accredited Certificate qualification or a Statement of Attainment if you achieve in one or more units of competency. Most EVET courses articulate into further nationally accredited courses delivered by TAFE, or other private providers.

EVET courses are offered across a variety of job areas, such as children's services, automotive mechanics, animal studies, human services (nursing), and many more.

EVET courses offer dual accreditation: students who successfully complete these courses will gain unit credit toward their Higher School Certificate (HSC) and will also receive a nationally recognised industry based qualification.

EVET Board Developed Courses contribute to the Australian Tertiary Admissions Rank (ATAR) with students able to sit for an optional Higher School Certificate examination.

Work placement

Many EVET courses include some time working in the industry area of your course. This is called Work Placement and students learn new skills and apply the skills they have already learnt as part of their course. EVET 240 hour Board Developed Courses include mandatory work placement of 70 hours. Board Endorsed Courses may also have a mandatory work placement component.

Work placement helps students to:

- gain insights into the kind of career they would like to have
- make informed decisions about further training and study
- become more employable
- be better equipped for business and employment opportunities.

When applying for an EVET course students and their parents will need to show that career pathway planning is integral to the student's course selection and the student understands the commitment required including:

- the completion of all course requirements, including mandatory work placement
- regular attendance. Students are responsible for arranging their own travel and meeting the travel costs
- timetabling issues which may require students to catch up on class work missed at school.

Applications to undertake an EVET course occur during term 3. NB: Students can only enrol in one EVET course.

Contact the school's VET coordinator or careers adviser for details on what EVET courses are available and how to apply.

Reporting Model

Students successfully completing their Higher School Certificate will receive a portfolio of results. The portfolio will contain their Higher School Certificate testamur and a Summary of Results.

If students complete VET courses they are issued with additional certification of their achievements with an indication of the competencies that they have achieved. Working examples are below.

Subject Selection Timeline Year 11 2021

Subject Selection Information

The subject selection process will be completed in consultation with the Deputy Principal, Head Teacher Secondary Studies and Careers Advisor. After the Subject Taster Lessons, students will be asked to reflect on the courses they engaged with and **complete the following information in preparation for their interview that will follow in Week 6, Term 3, 2020.**

Step 1: Understanding the Higher School Certificate

Using the content of this Handbook, complete the following questions in consultation with your parent/carer.

Why is it important to meet the HSC Minimum Standards for reading, writing and numeracy prior to completing your HSC?

What course is compulsory for you to complete in years 11 and 12 to receive a HSC?

What are 'units'?

What two components generate your HSC Reported Mark?

Step 2: Subject Selection Consideration

Below are the subjects available under each line. Highlight the subject you are considering completing under each line.

English:	Maths:	HSIE:	Science:	TASAM:	PD/H/PE and Language:
- English Advanced	- Mathematics Advanced	- Ancient History	- Investigating Science	- IT Timber	- CAFS
- English Standard	- Mathematics Standard	- Geography	- Biology	- Music	- PD/H/PE
- English Studies	- IPT	- Retail	- Marine Studies	- Hospitality	- Italian Beginners
- Society and Culture	- IT Multimedia	- Work Studies	- Physics	- Visual Arts	- SLR
- Extension 1	- Extension 1-2	- Business Studies		- Food Technology	
				- Visual Design	
				- Exploring Early Childhood	
				- Construction	

Other subjects I would consider include:

Step 3: Complete Questions

What career options are you considering for your future? _____

- Do you wish to complete Saturday School? Yes No
- Do you wish to complete Year 12? Yes No
- Do you wish to complete an EVET course? Yes No
- Do you wish to receive an ATAR? Yes No
- Do you wish to an apprenticeship? Yes No
- Have you activated your Students Online account? Yes No

Step 4: Declaration

I completed this form in consultation with: _____

I have read the information within this Handbook and have the following questions:

1. _____

2. _____

3. _____

Student Name: _____

Signature: _____

Date: _____ / _____ / _____

Step 5: Complete Information for Unique Student Identifier (USI)

From 2015, anyone undertaking a Vocational Education and Training course or a White Card/First Aid course (eg: through TAFE or other training providers) is required to have a "Unique Student Identifier" (USI). It is used to identify your child/ward when undertaking any vocational training.

A USI allows students to login into their training account and see all their training records and the results of all courses started and completed. Students can also print out all of their results to take to an employer when they are applying for a job or to any training provider when you are doing any additional courses.

Warrawong High School requests that all students starting Year 11 have a USI account and record this number on the careers website in the student secure area, (www.warrawonghighcareers.com). Students can access this site anywhere.

If you have not yet obtained a USI you can apply for it directly at <http://www.usi.gov.au/create-your-USI/> on computer or mobile device or log on to www.warrawonghighcareers.com and enter secure student area. Please note that if you would like to specify your gender as 'other' you will need to contact the USI Office for assistance.

Enter your Unique Student Identifier (USI) below if you already have one.

Unique Student Identifier (USI)

--	--	--	--	--	--	--	--	--	--

If students cannot apply at home or are having difficulties applying, the Careers Advisor will help them apply during their Subject Selection Interview. Students will need a form of identification. This can be a copy of their Birth Certificate, Medicare Card, Passport or Learners Driving Licence.

If you would like the Careers Advisor to help your child/ward apply for a USI number, a Medicare Card is generally the easiest way. Students can either bring their Medicare card to the interview, take a photo of the Medicare card or complete details below.

The following details will be required:

Medicare Number: _____

Name: _____ (Exactly as on Card)

Reference Number on card: ____

Expiry Date: ____/____

Public Schools NSW, Wagga Wagga. RTO 90333

VET ENROLMENT FORM

The Registered Training Authority (RTO) is responsible for the quality of the training and assessment in compliance with The Standards for RTOs 2015 and for the issuance of the Australian Qualifications Framework (AQF) certification documentation, https://www.asqa.gov.au/about/australias-vet-sector/standards-registered-training-organisations-rtos-2015 .

Prior to enrolment the RTO provides accurate information that enables the learner to make informed decisions about undertaking training with the RTO. Every student is provided with a specific site VET Course Information sheet that provides qualification information.

Privacy Notice

Under the Data Provision Requirements 2012, Public Schools NSW Wagga Wagga, RTO 90333, is required to collect personal information about you and to disclose that personal information to the National Centre for Vocational Education Research Ltd (NCVER).

Your personal information (including the personal information contained on this enrolment form), may be used or disclosed by Public Schools NSW Wagga Wagga, RTO 90333, for statistical, administrative, regulatory and research purposes. Public Schools NSW Wagga Wagga, RTO 90333, may disclose your personal information for these purposes to:

- Commonwealth and State or Territory government departments and authorised agencies; and NCVER
• Personal information that has been disclosed to NCVER may be used or disclosed by NCVER for the following purposes
• populating authenticated VET transcripts
• facilitating statistics and research relating to education, including surveys and data linkage
• understanding how the VET market operates, for policy, workforce planning and consumer information and
• administering VET, including program administration, regulation, monitoring and evaluation.

NCVER will collect, hold, use and disclose your personal information in accordance with the Privacy Act 1988 (Cth), the National VET Data Policy and all NCVER policies and protocols (including those published on NCVER's website at www.ncver.edu.au).

Study reason

Select the main reason you are undertaking this course (Tick ONE box only)

To gain extra skills to apply for a job []
For personal interest or self-development []
To gain skills for community/voluntary work []
To learn about the requirements for work []
Other reason []

Personal details

Full Name _____

Date of Birth ___ / ___ / _____

If you have a disability, impairment or long-term condition ensure your school is informed.

Delivery details

This qualification will be delivered at school over one or two years.

Unique Student Identifier (USI)

Detailed course information is provided on each Course Information Sheet.

From 1 January 2015, we Wagga Wagga RTO can be prevented from issuing you with a nationally recognised VET qualification or statement of attainment when you complete your course if you do not have a Unique Student Identifier (USI). In addition, we are required to include your USI in the data we submit to NCVER. If you have not yet obtained a USI you can apply for it directly at https://www.usi.gov.au/students/create-your-usi/ on computer or mobile device.

Each student must provide the school with their USI number before enrolment in a VET course.

Grid of 10 empty boxes for USI number entry

Ancient History

Board Developed Course that may count towards your ATAR as it is a Category A course – 2 Unit

Contact Person: Mr Robert Oczos

Prerequisites

- Developed literacy skills
- Ability to formulate and sustain argument
- Evidence based writing skills

Course Overview

This course gives students the chance to study in depth the lives of ancient people and the societies they built.

The **Preliminary course** focuses on how archaeologists, historians and scientists work together to investigate the past. Other topics are drawn from ancient Rome, Egypt, and elsewhere in Asia and the Americas and focus on how History is constructed, presented and preserved as well as associated issues with these processes.

The **HSC course** looks in detail at ancient Roman towns of Pompeii and Herculaneum, the enigmatic Spartan society and the life of Julius Caesar and his impact upon the fall of the Roman Republic.

For whom this subject is intended:

This course suits students who are fascinated by ancient peoples and enjoy discovering more about them. Ancient History is also useful for students wishing to study arts, journalism, archaeology, education, politics or law at university. The skills you develop in this subject assist you not only beyond school but will also be useful for other subjects.

Main Topics Covered

Preliminary

- How Historians, archaeologists and scientists investigate the past
- Tutankhamun's tomb
- The Role of women in Greece and Rome
- The Siege and Fall of Masada
- The preserved town of Dier el-Medina

HSC Course

- Cities of Vesuvius: Pompeii and Herculaneum
- Spartan Society to the battle of Leuctra
- Personality: Julius Caesar
- The Fall of Rome: 44BC

Course Expectations and Requirements

Students are organised, ready to work each lesson and able to communicate well through their written work.

Course Fee: There is no fee attached to this course

Biology

Board Developed Course Category A - 2 Unit

Contact Person: Mrs Katherine Elphick

Prerequisites

- Completion of 7-10 Science
- Completion of VALID Stage 5 - average A - B grade (recommended)
- Completion of Year 10 Student Research Project

Course Overview

The Year 11 course investigates cellular structure and provides a base for understanding the way in which multicellular organisms transport and absorb nutrients and carry out gas exchange. Exploring variations in the structures and functions of organisms provides an understanding of the effects of the environment on living things and how this leads to biodiversity.

The Year 12 course investigates reproduction, inheritance patterns and the causes of genetic variation in both plants and animals. Applications of this knowledge in biotechnology and various genetic technologies are explored in the light of their uses in the treatment, prevention and control of infectious and non-infectious diseases.

Main Topics Covered

Preliminary

The Year 11 course consists of four modules

- **Module 1** Cells as the Basis of Life
- **Module 2** Organisation of Living Things
- **Module 3** Biological Diversity
- **Module 4** Ecosystem Dynamics

HSC Course

The Year 12 course consists of four modules

- **Module 5** Heredity
- **Module 6** Genetic Change
- **Module 7** Infectious Disease
- **Module 8** Non-infectious Disease & Disorders

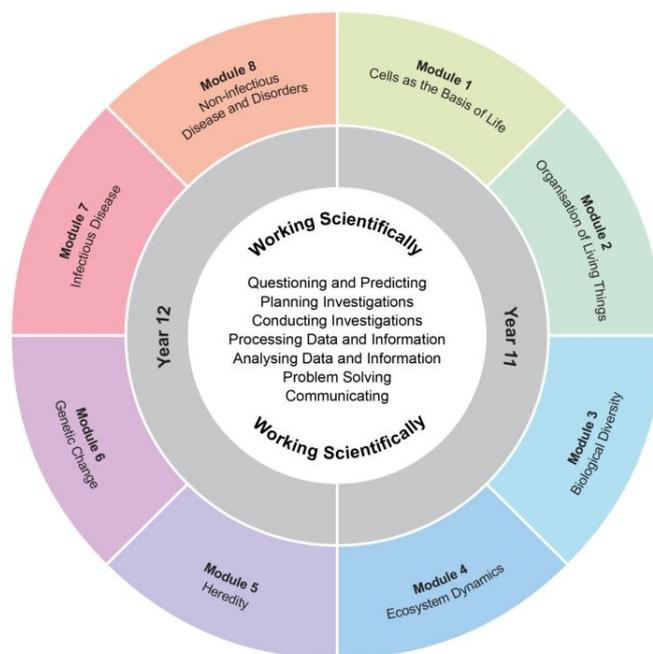

Course Expectations and Requirements

Students are provided with 15 hours of course time for Depth Studies in both Year 11 and Year 12. During this time students may undertake an investigation/activity that allows for the further development of one or more scientific concepts.

A Depth Study may be one investigation/activity or a series of investigations/activities. Depth Studies may be included in one module or across several modules.

Practical investigations are an essential part of the Year 11 and Year 12 courses and must occupy a minimum of 35 hours of course time each year.

Fieldwork is also mandated in Year 11 and is an integral part of the learning process.

Students are expected to engage in their own time in the Edrolo Online Study tool, conduct interest based research and read scientific articles to broaden their scientific understanding and support their learning.

Course Fee: \$20.00

Business Studies

Board Developed Course that may count towards your ATAR as it is a Category A course.

Contact Person: Mr Robert Oczos

Prerequisites

- Sound Literacy and Numeracy skills

Course Overview

The Business Studies Course is designed to prepare students to participate effectively and responsibly in our commercial society. This course provides a general business education that will assist students in later life whatever employment or life situation develops for them. Business Studies provides students with an opportunity to bridge the gap between school and work and develops a range of business related skills.

For whom this subject is intended:

Business Studies is an ideal background for tertiary study in a range of areas. The course is also designed for people who wish to run a business or work in a managerial capacity.

Students of Business Studies may find an interest in a career in:

Accounting, Training and Development, Banking, Marketing, Small Business, Retailing, Industrial Relations, Advertising and Promotion, Law, Administration, Human Resource Management, Economics Analysis, Financial Management

Main Topics Covered

Preliminary

- Nature of Business
- Business Management
- Business Planning

HSC Course

- Operations
- Marketing
- Finance
- Human Resources

Course Expectations and Requirements

In the Preliminary course there is a research project, investigating the operations of a small business which students find of particular interest.

Course Fee: There is no fee attached to this course.

Community and Family Studies

Board Developed Course Category A - 2 Unit

Contact Person: Mr Aaron Davis

Prerequisites

- Interest in health/wellbeing content in PDHPE
- Achieved A-C grade in English/PDHPE
- Effective communication
- Strong work ethic in 7-10

Course Overview

Community and Family Studies is designed to develop in each student an understanding of the diverse nature and interdependence of families and communities, within Australian society. The course enables students to plan and manage resources effectively in order to address contemporary issues facing families and communities. Students will explore a range of groups in society to analyse the role community support systems play in ensuring equity.

Main Topics Covered

Preliminary

The Year 11 course consists of three modules

- **Resource management**
- **Individuals & Groups**
- **Families & Communities**

HSC Course

The Year 12 course consists of four modules

- **Research methodologies**
- **Groups in context**
- **Parenting & caring**
- **Individuals and work**

Course Expectations and Requirements

- Students are required to complete an Independent Research Project as part of the HSC internal assessment. The focus of the Independent Research Project should be related to the course content of one or more of the following areas: individuals, groups, families, communities, resource management.
- Excursions include travelling to Kings Cross to visit Wayside Chapel when completing a case study on Homelessness case study, an amazing race with support services in Wollongong and ongoing communication with a variety of support services within the local community.

Course Fee: There is no fee attached to this course.

Certificate II in Construction Pathways

Vocational Education & Training (VET) Course Category B - 2 Unit

Contact Person: Mr Damien Beattie

Wagga Wagga RTO 90333

CPC20211 Certificate II in
Construction Pathways

**70 HOURS of work placement
MANDATORY**

Prerequisites

- VET Enrolment Form
- USI Number
- White Card (will be offered during course to complete)
- Any Technology based subject in Stage 5

Course Overview

Construction provides students with the opportunity to gain a range of skills suitable for employment in the construction industry and to provide pathways for further study including TAFE. Students who are assessed as competent will be eligible for a CPC20211 Certificate II in Construction Pathways.

The construction industry involves

- constructing buildings
- modifying buildings
- contracting
- designing buildings
- measuring materials and sites
- communicating with clients
- using a wide range of tools

Potential occupations include

- building
- bricklaying
- carpentry
- concreting
- glazing
- joinery
- roofing
- shop fitting
- tiling
- painting and decorating

Course Expectations and Requirements

- Competency Based Assessment
- Board Developed Course Category B status for Australian Tertiary Admission Rank (ATAR)
- **70 hours of Work Placement *MUST* be completed to meet the requirements of the HSC**

Course Fee: \$ 25.00 per term OR - \$100.00 for Year 11/ \$75.00 for Year 12.

Plus White Card: \$50

Please Note: Only one category B subject can be used towards an ATAR calculation.

CPC20211 Certificate II in Construction Pathways

Entry Requirements:

Students must complete a VET Enrolment Form and supply their USI before the commencement of any training and assessment. Foundation skills may be accessed using the LLN Robot to determine the language, literacy and numeracy suitability of a student for this course.

Course: Construction (240 indicative hours) 4 Preliminary and/or HSC units in total

Board Developed Course Category B status for Australian Tertiary Admission Rank (ATAR)

Students must complete a minimum of 70 hours of work placement to meet the requirements of the HSC.

Course Description This curriculum framework course is accredited for the HSC and provides students with the opportunity to obtain nationally recognised vocational qualifications. This is known as dual accreditation. Students will be able to gain skills in planning and organising work, measuring and calculating, reading and interpreting plans, safe and environmentally sustainable work practices and the use of construction tools and equipment. Skills gained in this industry transfer to other industries. Occupations in the construction industry include: construction or trades assistant, builder's labourer, bricklayer, carpenter, plasterer, roof tiler, concreter, painter and decorator and wall or floor tiler.

Core Units of Competency

- CPCCCM1012A Work effectively & sustainably in the construction industry
- CPCCCM1013A Plan and organise work
- CPCCCM1014A Conduct workplace communication
- CPCCCM1015A Carry out measurements and calculations
- CPCCCM2001A Read and interpret plans and specifications
- CPCCOHS2001A Apply OHS requirements, policies & procedures in the construction industry

Elective Units of Competency

- CPCCCA2002B Use carpentry tools and equipment
- CPCCCA2011A Handle carpentry materials
- CPCCCM2004A Handle construction materials
- CPCCCM2006B Apply basic levelling procedures
- CPCCCA2003A Erect and dismantle formwork for footings and slabs on ground
- CPCCWHS1001 Prepare to work safely in the construction industry. (White Card)

Options: To gain the qualification and be eligible for the HSC, **Option1 must be completed.**

Option 1

- CPCCJN2001A Assemble components
- CPCCJN2002B Prepare for off-site manufacturing process

This course contains two additional units above the qualification to meet NESA HSC requirements.

Students may apply for recognition of prior learning or be granted credit transfer provided suitable evidence is submitted.

Support services may be available to meet needs of individual students.

Qualifications Students who are assessed as competent in the above units of competency will be eligible for a CPC20211 Certificate II in Construction Pathways. Students who do not achieve competency in all the above units and achieve at least one unit of competency will be eligible for a Statement of Attainment towards CPC20211 Certificate II in Construction Pathways.

Competency-based Assessment: Students in this course work to develop the competencies, skills and knowledge described by each unit of competency above. To be assessed as competent a student must demonstrate to a qualified assessor that they can effectively carry out tasks to industry standards. Students will be progressively assessed as 'competent' or 'not competent' in individual units of competency.

N Determinations: Where a student has not met NSW Education Standards Authority (NESA) course completion criteria, including meeting the mandatory work placement requirement, they will receive an "N" determination (course not satisfactorily completed). The course will not count towards the HSC although units of competency achieved will count towards an Australian Qualifications Framework (AQF) qualification.

External Assessment (optional HSC examination): Students completing this course are eligible to sit a written HSC examination which may be used in the calculation of an ATAR. The examination is independent of the competency-based assessment undertaken during the course and has no impact on the eligibility of a student to receive an AQF VET qualification.

Complaint or Appeals: Students may lodge a complaint or appeal regarding assessment decisions through their VET trainer.

Resources costs: \$25 per term - White Card course - \$50 (compulsory) Discuss payment options with your trainer

Refund Arrangements: on a pro-rata basis

Delivery Arrangements: 9 periods per fortnight

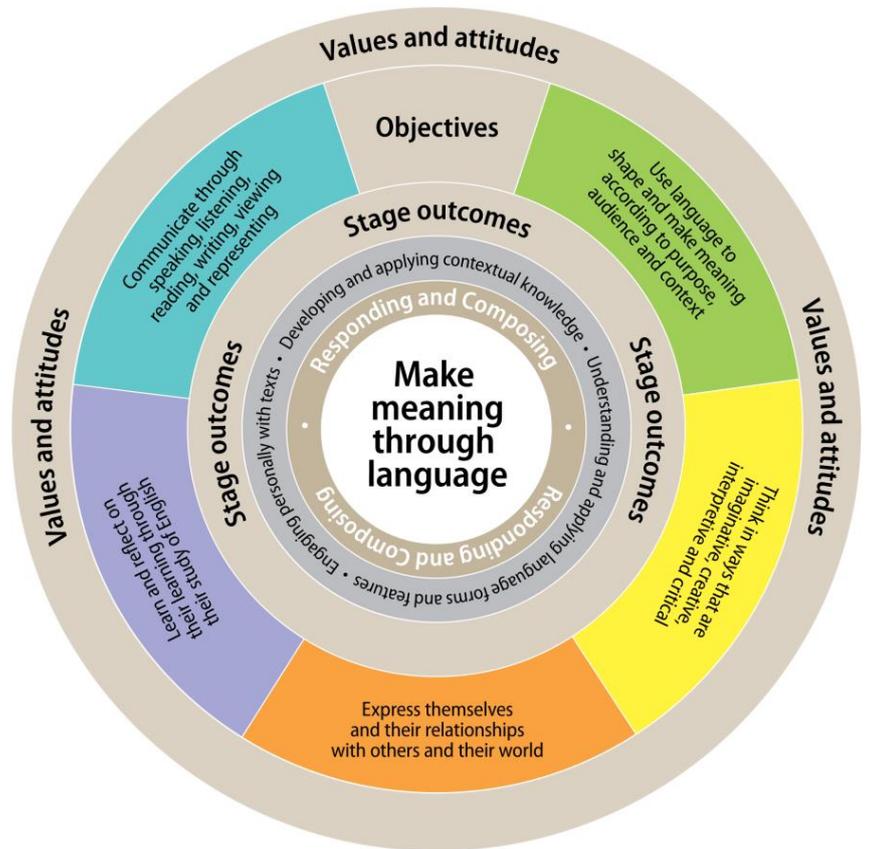

Exclusions: Refer to NESA Stage 6 VET Board Endorsed course description. Where recognition of prior learning (RPL)/credit transfer (CT) is applied to a unit of competency based on achievement of another unit of competency within this same course, the indicative hours for the unit achieved through RPL/CT would not contribute to HSC credit.

A school-based traineeship is available in this course, for more information: <http://www.sbatinnsw.info/>

Course Expectations and Requirements

- 120 hours
- In Year 11 Students will be assessed in various modes with outcomes evaluated in **three tasks**. The tasks include; a multimodal presentation, sustained written and reflective tasks and a yearly exam.
- In Year 12 Students school-based assessment results will be collated through the completion of **four assessment tasks**. The tasks include; a multimodal presentation, sustained written and reflective tasks and a Trial Exam.
- The Stage 6 HSC English Standard Course requires students to complete **two** HSC Exam's.

Course Fee: No fee attached to this course; however, attendance at performances and HSC study days may be required throughout the course and students must pay for these themselves.

English EAL-D

Board Developed Course Category A - 2 Unit

Contact Person: Ms Brooke Truebody

Prerequisites

- The English EAL/D course is for students who have been educated in English for five years or less, either in Australia or overseas.

Course Overview

In the English EAL/D Year 11 course, students acquire and develop specific English language skills, knowledge and understanding by exploring a range of texts which include prose fiction, drama, poetry, nonfiction, film, digital and media, as well as Australian texts. Through this close study of text, students develop their understanding of the ways ideas and processes are represented in texts.

In the English EAL/D Year 12 course, students reinforce and extend their language skills through the close study of at least three types of prescribed texts drawn from prose fiction, poetry or drama, film or media or nonfiction. Through this close study of texts, students develop and apply skills in synthesis.

In this course, students will develop and consolidate their use, understanding and appreciation of Standard Australian English to enhance their personal, social, educational and vocational lives.

English EAL/D is designed for students from diverse non-English speaking, Aboriginal or Torres Strait Islander backgrounds as designated by the course entry requirements. The students engage in a variety of language learning experiences to develop and consolidate their use, understanding and appreciation of Standard Australian English to enhance their personal, social, educational and vocational lives. The students learn to respond to and compose a wide variety of texts in a range of situations in order to be effective, creative and confident communicators.

Main Topics Covered

Preliminary

The Year 11 course consists of three modules

- Language and Texts in Context
- Close Study of Text
- Texts and Society

HSC Course

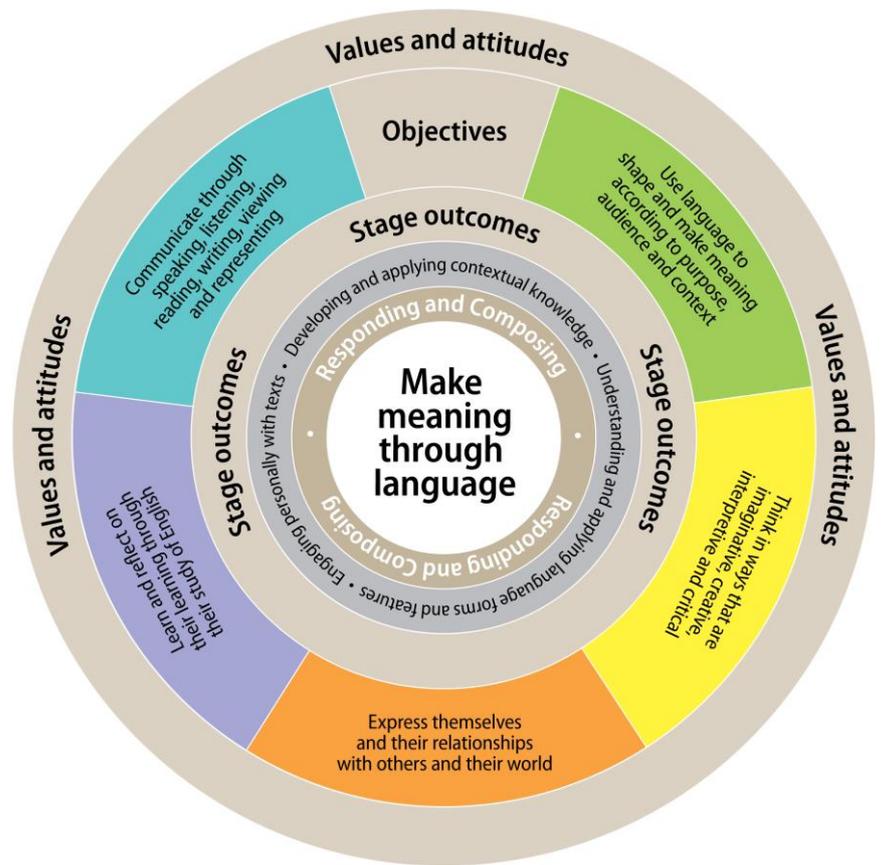

The Year 12 course consists of four modules

- Texts and Human Experiences
- Language, Identity and Culture
- Close Study of Text
- Focus on Writing

Course Expectations and Requirements

- 120 hours
- In Year 11 Students will be assessed in various modes with outcomes evaluated in **three tasks**. The tasks include: a multimodal presentation; sustained written and reflective tasks; and, a yearly exam.
- In Year 12 students school-based assessment results will be collated through the completion of **four assessment tasks**. The tasks include: a multimodal presentation; Listening Task; sustained written and reflective tasks; and, a Trial Exam.
- The Stage 6 HSC English EAL/D Course requires students to complete **two HSC Exams** and a **Listening Paper (3 exams in total)**.

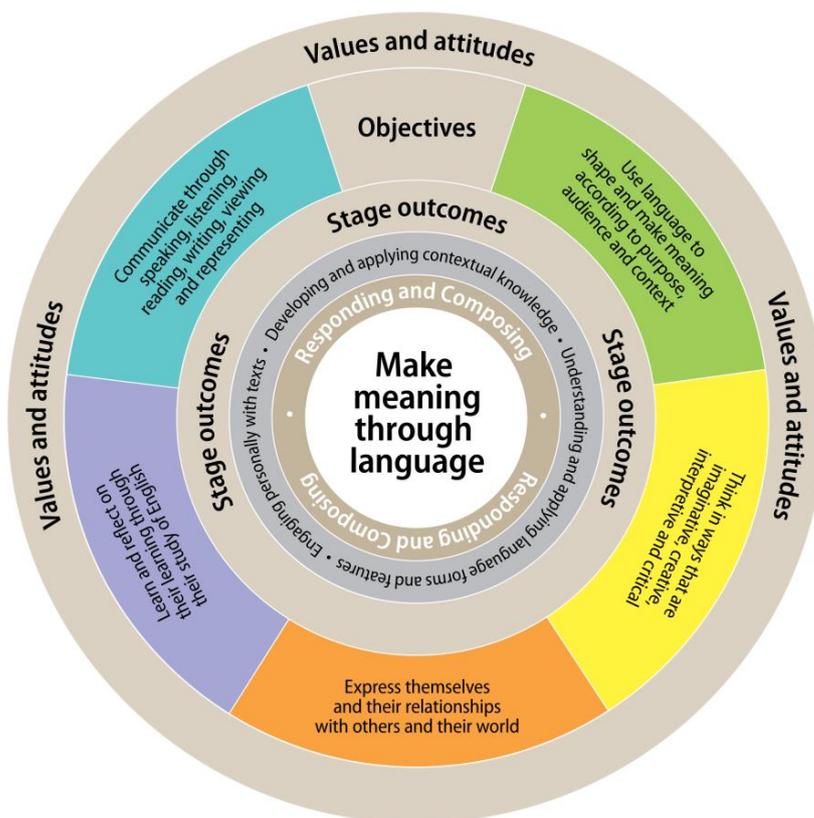

Course Fee: No fee attached to this course; however, attendance at performances and HSC study days may be required throughout the course and students must pay for these themselves.

Course Expectations and Requirements

- 60 hours
- In Year 11 Students will be assessed in various modes with outcomes evaluated in **three tasks**. The tasks include; a multimodal presentation, sustained written and reflective tasks and a yearly exam.
- In Year 12 Students school-based assessment results will be collated through the completion of **four assessment tasks**. The tasks include; sustained written creative and reflective tasks and a Trial Exam.
- The Stage 6 HSC English Extension Course requires students to complete a HSC Exam's.

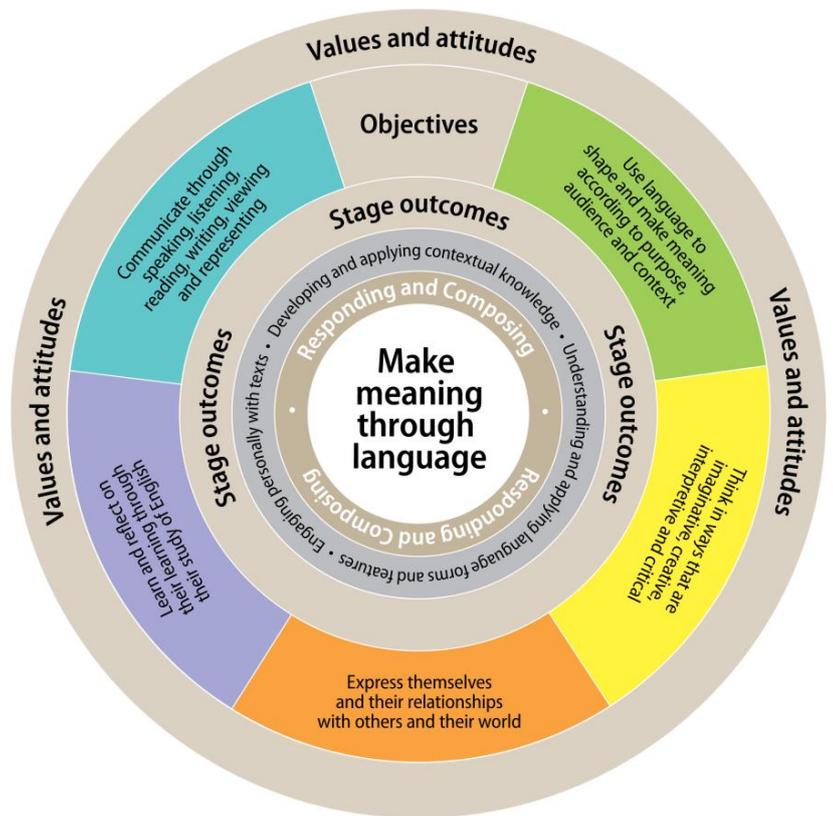

Course Fee: No fee attached to this course; however, attendance at performances and HSC study days may be required throughout the course and students must pay for these themselves

Course Expectations and Requirements

- 120 hours
- In Year 11 Students will be assessed in various modes with outcomes evaluated in **three tasks**. The tasks include; a multimodal presentation, sustained written and reflective tasks and a yearly exam.
- In Year 12 Students school-based assessment results will be collated through the completion of **four assessment tasks**. The tasks include; a multimodal presentation, sustained written and reflective tasks and a Trial Exam.
- The Stage 6 HSC English Standard Course requires students to complete **two HSC Exam's**.

Course Fee: No fee attached to this course; however, attendance at performances and HSC study days may be required throughout the course and students must pay for these themselves.

English Studies

Board Developed Course Category B subject- 2 Unit

Contact Person: Ms Brooke Truebody

Prerequisites

- Successful completion of the Stage 5 English Course.

Course Overview

In the English Studies course, students explore the ideas, values, language forms, features and structures of texts in a range of personal, social, cultural and workplace contexts. They respond to and compose texts to extend experience and understanding, access information and assess its reliability, and synthesise the knowledge gained from a range of sources for a variety of purposes.

In this course, students will consolidate their English literacy skills to enhance their personal, social, educational and vocational lives.

Due to changes in the English Studies course, students considering choosing this course should be advised that:

- English Studies is a Stage 6 Board Developed Course (Category B) to be implemented with Year 11 from 2018
- From the 2019 HSC, students will be able to sit for an optional HSC examination and will be reported on a common scale with the English Standard and English Advanced courses
- Students choosing not to sit for the English Studies HSC examination will still be eligible for the HSC if they have satisfactorily completed courses that comprise the pattern of study required by NESA
- To be eligible for an ATAR, students studying the English Studies course must complete the optional HSC examination and include a further 8 units of Category A courses in their pattern of study.
- Please speak to Ms Napier or Ms Truebody for more information should you wish to undertake English Studies as an ATAR subject.

English Studies is designed for students who wish to refine their skills and knowledge in English and consolidate their English literacy skills to enhance their personal, social, educational and vocational lives. It is a course for students who wish to be awarded a Higher School Certificate but who are seeking an alternative to the English Standard course.

Main Topics Covered

Preliminary

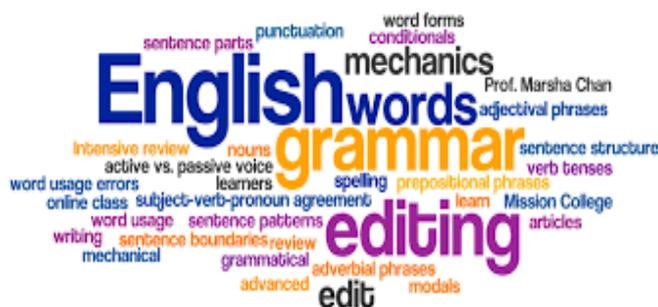

The Year 11 course consists of three modules

- **Achieving through English: English in education, work and community**
- **Students study 2 additional syllabus modules**

HSC Course

The Year 12 course consists of four modules

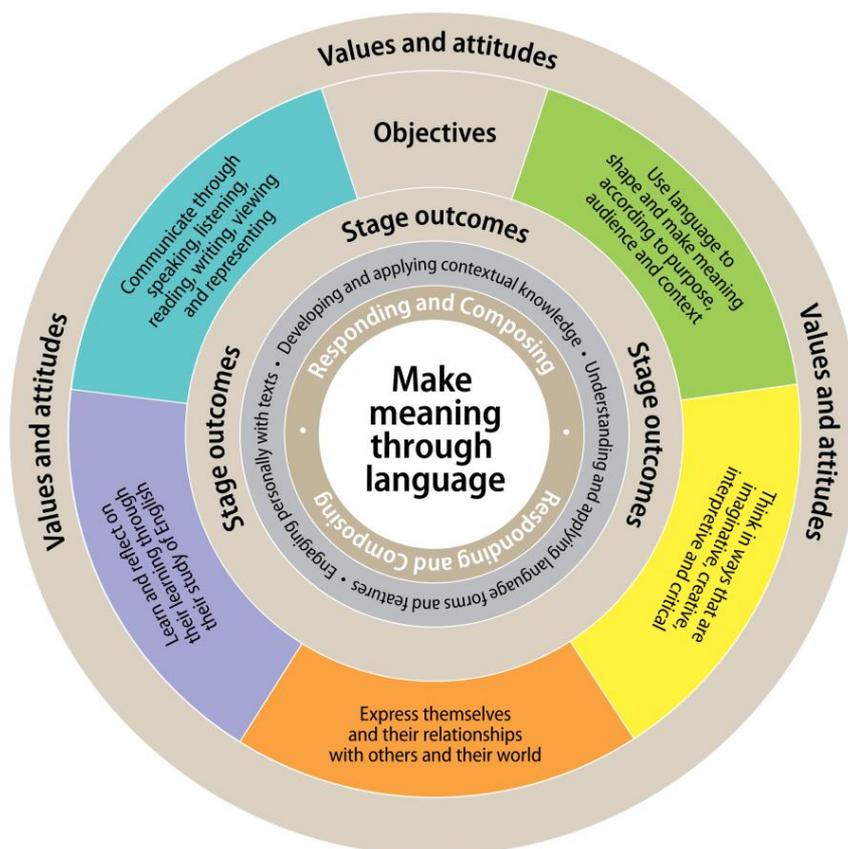

- **Texts and Human Experiences**
- **Students study 3 additional syllabus modules**

Course Expectations and Requirements

- 120 hours
- In Year 11 Students will be assessed in various modes with outcomes evaluated in **three tasks**.
- In Year 12 Students school-based assessment results will be collated through the completion of **four assessment tasks**.

Course Fee: No fee attached to this course; however, attendance at performances and HSC study days may be required throughout the course and students must pay for these themselves.

Food Technology

Board Developed Course Category A - 2 Unit

Contact Person: Ms Bridgette Evitt

Prerequisites

Students undertaking this course would benefit from having studied Food Technology in Stage 5 (Years 9 & 10). These students may be given priority.

- A high level of skill in undertaking practical food applications.
- Sound written skills to undertake a 3 Hour written HSC Examination
- This course is more rigorous than Hospitality as it is a Category A Course.

Course Overview

This course aims to develop an understanding about all aspects of food and decisions involving food which affect the wellbeing of the individual and the social and economic future of Australia. Students will develop knowledge and understanding of food systems and nutrition.

They will gain skills in researching, analysing and communicating. Skills will also include experimenting with and preparing food, designing, implementing and evaluating solutions to food situations. Practical work and experimentations with food will occur throughout each unit of work and participation in practical lessons is mandatory.

Main Topics Covered

Preliminary

The Year 11 course consists of three modules

- **Food Availability and Selection 30%**
- **Food Quality 40%**
- **Nutrition 30%**

HSC Course

The Year 12 course consists of four modules

- **The Australian Food Industry 25%**
- **Food Manufacture 25%**
- **Food Product Development 25%**
- **Contemporary Nutrition Issues 25%**

Course Expectations and Requirements

Students undertaking this course are expected to

- Attempt and complete all written work booklets, assessment notifications and study tasks.
- Work in a team environment during practical lessons.
- Attend excursions and field studies to consolidate understanding of the Food Industry.
- Acknowledge the mandatory fee structure so practical applications can provide quality learning opportunities.

Course Fee: \$ 25.00 per term OR - \$100.00 for Year 11/ \$75.00 for Year 12.

Geography

Board Developed Course that may count towards your ATAR as it is a Category A course.

Contact Person: Mr Robert Oczos

Prerequisites

- Sound Literacy and Numeracy skills

Course Overview

The **Preliminary course** involves studies in both physical and human geography up to the global scale. Students acquire the necessary geographical tools and skills so that they can become critical and creative thinkers about contemporary geographical issues – and apply this to a practical research project.

The **HSC course** further develops skills and knowledge by conducting an investigation of the function of ecosystems at risk, their management and protection, cities both in the developed and developing world, and an economic activity such as farming, tourism and/or manufacturing at both a local and global level.

For whom this subject is intended:

This subject is intended for those students who intend to pursue a career in environmentally related disciplines. It is also designed for those students who have an interest in the environment and human interaction with the many different forms of the environment including cities.

Main Topics Covered

Preliminary

- Biophysical Studies
- Global Challenges
- Senior Geography Project

HSC Course

- Ecosystems At Risk
- Urban Dynamics
- People & Economic Activity

Course Expectations and Requirements

The senior Geography project is an, interesting, challenging and compulsory part of the preliminary course.

There are 12 hours of compulsory Fieldwork that involves excursions in school time during both Year 11 and Year 12. Venues include: Killalea State Recreation Reserve and a “Heart of Sydney” visit.

Course Fee: There may be a fee for the fieldwork.

Certificate II in Hospitality

Vocational Education & Training (VET) Course Category B - 2 Unit

Contact Person: Ms Bridgette Evitt

Prerequisites

- VET Enrolment Form
- USI Number
- Any Technology based subject in Stage 5

Course Overview

Hospitality provides students with the opportunity to gain a range of skills suitable for employment in the hospitality industry and to provide pathways for further study including TAFE.

Students who are assessed as competent will be eligible for a SIT20316 Certificate II in Hospitality.

The hospitality industry involves

- High level customer service
- Preparing, cooking and serving food
- Developing menus and managing resources
- working in
 - ✓ restaurants, hotels and motels
 - ✓ catering operations
 - ✓ clubs and pubs
 - ✓ cafes and coffee shops

Potential occupations include

- chef
- café attendant
- catering assistant
- bar assistant
- events coordinator
- food and beverage manager
- reservations clerk
- front office receptionist
- guest service coordinator

Course Expectations and Requirements

- Competency Based Assessment
- Board Developed Course Category B status for Australian Tertiary Admission Rank (ATAR)
- **70 hours of Work Placement MUST be completed to meet the requirements of the HSC**
- Some units of competency in this framework are externally assessed by Wagga Wagga RTO

Course Fee: \$ 25.00 per term OR - \$100.00 for Year 11/ \$75.00 for Year 12.

Please Note: Only one category B subject can be used towards an ATAR calculation.

Education

Wagga Wagga RTO 90333

SIT20316 Certificate II in Hospitality

Entry Requirements:

Students must complete a VET Enrolment Form and supply their USI before the commencement of any training and assessment. Foundation skills may be accessed using the LLN Robot to determine the language, literacy and numeracy suitability of a student for this course.

Course: Hospitality (240 indicative hours)

4 Preliminary and/or HSC units in total

Board Developed Course

Category B status for Australian Tertiary Admission Rank (ATAR)

Students must complete a minimum of 70 hours of work placement to meet the requirements of the HSC.

Course Description

This curriculum framework course is accredited for the HSC and provides students with the opportunity to obtain nationally recognised vocational qualifications. This is known as dual accreditation. This qualification reflects the role of individuals who use a defined and limited range of hospitality operational skills. Students work under direct supervision and involved in mainly routine and repetitive tasks using practical skills & basic industry knowledge.

This qualification provides a pathway to work in various hospitality settings including restaurants, hotels, motels, catering operations, clubs, pubs, cafés and coffee shops. Possible job titles: café attendant, catering assistant, food and beverage attendant.

Core Units of Competency

- BSBWOR203 Work effectively with others
- SITHIND002 Source & use information on the hospitality industry
- SITHIND003 Use hospitality skills effectively
- SITXCOM002 Show social and cultural sensitivity
- SITXCCS003 Interact with customers
- SITXWHS001 Participate in safe work practices

Elective Units of Competency

- SITXFSA001 Use hygienic practices for food safety
- SITHFAB004 Prepare and serve non-alcoholic beverages
- SITHFAB005 Prepare and serve espresso coffee
- SITHFAB007 Serve food and beverage
- SITHCCC001 Use food preparation equipment
- SITXFSA002 Participate in safe food handling practices
- BSBSUS201 Participate in environmentally sustainable work practices
- BSBCMM201 Communicate in the Workplace

This course contains two (2) additional units above the qualification to meet the requirements of the NSW Education Standards Authority (NESA).

Students may apply for recognition of prior learning or be granted credit transfer provided suitable evidence is submitted. Support services may be available to meet needs of individual students.

Qualifications

Students who are assessed as competent in the above units of competency will be eligible for SIT20316 Certificate II in Hospitality. Students who do not achieve competency in all the above units and achieve at least one unit of competency will be eligible for a Statement of Attainment towards SIT20316 Certificate II in Hospitality. Portfolios of evidence are required in some units of competency in this course.

Competency-based Assessment: Students in this course work to develop the competencies, skills and knowledge described by each unit of competency. To be assessed as competent a student must demonstrate to a qualified assessor that they can effectively carry out tasks to industry standards. Students will be progressively assessed as 'competent' or 'not yet competent' in individual units of competency.

N Determinations: Where a student has not met NESA course completion criteria, including meeting the mandatory work placement requirement, they will receive an "N" determination (course not satisfactorily completed). The course will not count towards the HSC although units of competency achieved will count towards an Australian Qualifications Framework (AQF) qualification.

External Assessment (optional HSC examination): Students completing this course are eligible to sit a written HSC examination which may be used in the calculation of an ATAR. The examination is independent of the competency-based assessment undertaken during the course and has no impact on the eligibility of a student to receive an AQF VET qualification.

Complaint or Appeals: Students may lodge a complaint or appeal regarding assessment decisions through their VET trainer.

Resources costs: \$25 per term Discuss payment options with your trainer

Refund Arrangements: on a pro-rata basis

Delivery Arrangements: 9 periods per fortnight

Exclusions: Refer to NESA Stage 6 VET Board Endorsed course description. Where recognition of prior learning (RPL)/credit transfer (CT) is applied to a unit of competency based on achievement of another unit of competency within this same course, the indicative hours for the unit achieved through RPL/CT would not contribute to HSC credit.

A school-based traineeship is available in this course, for more information: <http://www.sbatinnsw.info/>

Industrial Technology - Timber Products and Furniture Technologies

Board Developed Course Category A - 2 Unit

Contact Person: Ms Bridgette Evitt & Mr Damien Beattie

Prerequisites

Students undertaking this course would benefit from having a high level of comprehension of the design process, skill in the development of practical Timber projects including the production of a Major Design Portfolio.

Course Overview:

Industrial Technology at stage 6 will develop a student's knowledge & understanding of a selected industry and its related technologies highlighting the importance of design, management and production through practical experiences.

Industrial Technology Stage 6 consists of Project Work and an industry study that will develop a broad range of skills and knowledge related to the focus area: Timber.

Main Topics Covered

Preliminary

The Year 11 course consists of:

Industry Study (15%)

Design (10%)

Management & Communication (20%)

Production (40%)

Industry Related Manufacturing Technology (15%)

HSC Course

The Year 12 course consists of:

The following sections are taught in relation to the relevant focus area: Timber Products and Furniture Technologies

Major Project (60%)

Industry Study (15%)

Industry Related Manufacturing Technology (25%)

Course Expectations and Requirements:

In the Preliminary Course, students must design, develop and construct a number of projects. Each project will include a management folio. Students also undertake the study of an individual business within a focus area of industry.

In the HSC course, students design, develop and construct a Major Project with a comprehensive management folio that is student directed with the assistance of skill development gained from preliminary projects undertaken in class.

Course Fee: \$20 per Term or \$80.00 for Year 11/ \$60 for Year 12

Plus Individual Project Costs determined by student design in HSC coursework.

Industrial Technology – Multimedia

Board Developed Course Category A - 2 Unit

Contact Person – Mr McKee

Prerequisites

There are no prerequisite requirements for this course. Current ICT skills from Technology Mandatory and all other courses will be built on during this course.

Course Overview

This is a practical based subject centred on the multimedia industry and associated products. In undertaking this course students will learn a broad range of skills and knowledge of the industry by developing knowledge and understanding of safe and cooperative work practices, gain competence in designing, managing and communicating within the multimedia industry and develop knowledge and skills in producing quality products.

Students will learn to apply practical experiences to the study of the technology, design, management and organisation of the multimedia industry. Students use a range of multimedia software including, Adobe Creative Cloud applications and many other specialised applications, to create interactive multimedia products, such as simple games, videos, 2D and 3D animations, magazines and websites. There is no presumed knowledge or skills required however throughout the course students will develop skills to be able to:

- plan all processes and stages required to complete projects
- obtain, create and modify images, sound and text
- apply ethical constraints relating to authoring and copyright
- outsource appropriate expertise as needed to complement personal practical skills
- select from a wide variety of industry techniques and strategies and apply them in the production and presentation of the major project.

In Year 12, students will undertake a Major Project. The management of this project is to be supported by a folio that fully documents all stages of design and construction of the project.

Main Topics Covered

Preliminary

The Year 11 course consists of three modules

- Industry Specific Content & Production
- Tools and Machines
 - multimedia equipment and its uses
 - exploring multimedia software packages
 - design & development of presentations
- Materials & resources

HSC Course

The Year 12 course consists of three modules

- Tools and machines
 - using multimedia equipment
 - manipulating multimedia software packages
 - publishing multimedia presentations, materials & resources
- Materials & resources
 - file formats
- utilising web resources & digital libraries

Course Expectations and Requirements

This is an excellent course for all students, with the skills gained being able to be utilised in many areas of future employment.

Course Fee: - \$15

Investigating Science

Board Developed Course Category A - 2 Unit

Contact Person: Mrs Katherine Elphick

Prerequisites

- Completion of 7-10 Science
- Completion of Year 10 Student Research Project
- Stage 5 - average C grade or above (recommended)
- Completion of STEM elective (optional)

Course Overview

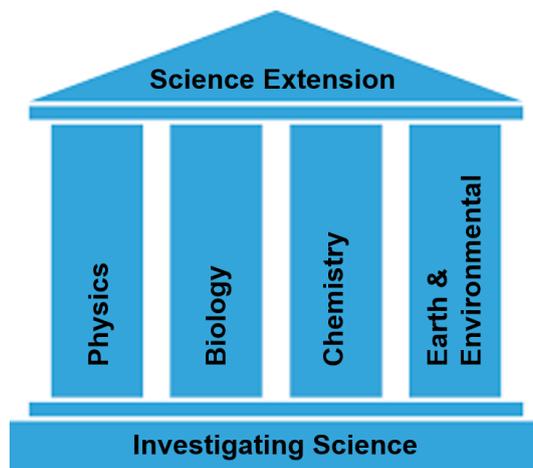

Investigating Science is a rigorous course designed to complement other stage 6 science courses, however can also be completed as a standalone course. This course has a strong focus on scientific investigation and evidence based practice which also provides skills complimentary to other non-science stage 6 courses.

The Year 11 course focuses on the centrality of observation in initiating the scientific process and examines the human tendency to draw inferences and make generalisations from these observations. Students learn about the development and use of scientific models and the similarities and differences between scientific theories and laws.

The Year 12 course builds on the skills and concepts learnt in Year 11 with students conducting their own scientific investigations and communicating their findings in scientific reports. Students are provided with the opportunity to examine the interdependent relationship between science and technology and apply their knowledge, understanding and skills to scientifically examine a claim.

The course concludes with students exploring the ethical, social, economic and political influences on science and scientific research in the modern world.

Main Topics Covered

Preliminary

The Year 11 course consists of four modules

- **Module 1** Cause & Effect - Observing
- **Module 2** Cause & Effect – Inferences and Generalisations
- **Module 3** Scientific Models
- **Module 4** Theories and Laws

HSC Course

The Year 12 course consists of four modules

- **Module 5** Scientific Investigations
- **Module 6** Technologies
- **Module 7** Fact or Fallacy?
- **Module 8** Science and Society

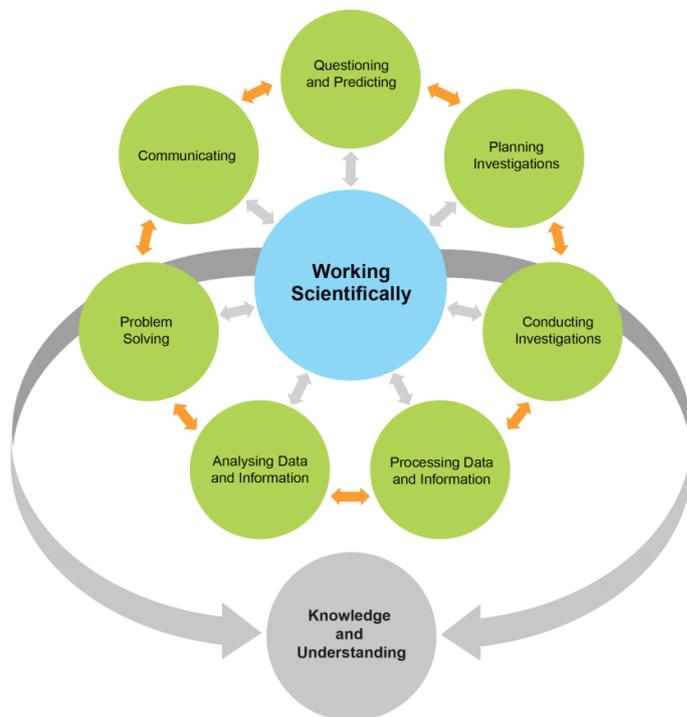

Course Expectations and Requirements

Students are provided with 30 hours of course time for Depth Studies in both Year 11 and Year 12. During this time students may undertake an investigation/activity that allows for the further development of one or more scientific concepts. A Depth Study may be one investigation/activity or a series of investigations/activities. Depth Studies may be included in one module or across several modules.

Practical investigations are an essential part of the Year 11 and Year 12 courses and must occupy a minimum of 35 hours of course time each year.

Students are expected to engage in their own time in the Edrolo Online Study tool, conduct interest based research and read scientific articles to broaden their scientific understanding and support their learning.

Course Fee: \$20.00

Languages

Board Developed Course Category A - 2 Unit

Contact Persons: Mr. Davis/ Ms Carvana

Course Overview

Learning languages allows students to engage with the linguistic and cultural diversity of the world and its peoples. Students can improve their personal, social, cultural and employment opportunities in an increasingly interconnected and interdependent world. Proficiency in languages provides a resource which helps communities within Australia and enables the nation to engage more effectively with the global community.

The aim of Languages is to develop an interest in & enjoyment of language learning. Students learn to appreciate and value their own heritage, culture and identity. Students also gain an appreciation and respect the culture, beliefs and values of others through language learning.

Students learn to communicate through: interacting, accessing & responding and composing various types of texts. Understanding takes place through: systems of language & the role of language and culture.

Students learning languages develop skills in communication, collaboration, negotiation and problem-solving. These skills help in a range of work settings, and students can become more effective and valuable members of the workforce. The ability to communicate in another language broadens future employment opportunities for students in an increasingly globalised world.

Course Expectations and Requirements

- High level of motivation to participate fully in every lesson
- Good work ethic to practise vocabulary/concepts for fluency

Examples of topics covered:

- Employment and careers
- Shopping
- The Environment
- Party planning

Educational Pathways:

- Continuers Languages/Tourism/Teaching/Interpreter-Translator/ Customer Service Representative/ Sales- Medical- Law Enforcement Professionals

Course Fee: \$20 Workbook fee, plus the possibility of costs for excursions or other activities

Marine Studies

Content Endorsed Course (CEC) that cannot be used in the calculation of an ATAR

Contact Person: Mrs Katherine Elphick

Course description:

Marine Studies provides students with the opportunity to:

- Develop awareness of marine ecosystem diversity
- Gain knowledge to assist with marine related occupations
- Experience marine recreational activities
- Develop a sense of responsibility, respect and the need for wise management of marine resources
- Measure the fundamental parameters which affect life in the marine environment
- Develop skills in using tools to construct marine environments
- Learn about and construct sustainable aquaponics systems
- Breed marine creatures for a commercial purpose
- Learn about marine first aid and complete a registered first aid course
- Complete the Surf Survival Certificate qualification
- Develop and master survival swimming and snorkelling skills.

For whom this subject is intended:

This course has been designed for students of all abilities and will cater for a range of academic, vocational and recreational interests. It will meet the needs of students who are not necessarily pursuing an academic career but who may be seeking knowledge and skills in the marine industries, tourism or urban development areas of employment.

Marine Studies will support key concepts studied in HSC Biology and assist in developing scientific literacy, scientific skills and provide real world application.

Main topics covered:

Preliminary

The Year 11 course consists of five modules

- **Module 1** Marine environment
- **Module 2** Marine safety & first aid
- **Module 3** Humans in water
- **Module 4** Life in the sea
- **Module 5** Marine & maritime employment

Electives

- Anatomy & Physiology of marine organisms
- Commercial & recreational fishing
- Coral Reef Ecology
- Local Area Study

HSC Course

The Year 12 course consists of four modules

- **Module 1** Dangerous marine
- **Module 2** Resuscitation certificate
- **Module 3** First aid certificate
- **Module 4** Marine aquarium

Particular course requirements:

Students who select this subject must:

- Be motivated and eager to participate in hands on activities
- Be organised and prepared to engage in water based activities on a frequent basis
- Be willing to conduct independent and group research on areas of interest

Fee: \$30.00 However students need to purchase their own snorkelling equipment (\$70-\$100) and also pay transport costs.

Mathematics Advanced

Board Developed Course Category A - 2 Unit

Contact Person: Ms Janelle Collins

Prerequisites

It is assumed that students choosing the [Year 11 Mathematics Advanced](#) course have studied the content and achieved the outcomes of the Mathematics Years 7–10 Syllabus (2014) and in particular, the content and outcomes of all substrands of Stage 5.1 and Stage 5.2, as well as most of the substrands of Stage 5.3.

Course Overview

The [Year 11 Mathematics Advanced and the Year 12 Mathematics Advanced courses](#) are designed to develop

knowledge, skills and understanding in areas of Mathematics

that are useful in the real world. Students are given

opportunities to apply working mathematically skills, communicate ideas, use models to solve problems

and develop ways of thinking in which problems are explored through observation, reflection and

reasoning. Content is related to their present and future needs. These courses provide an appropriate

mathematical background for students to follow future pathways which may involve mathematics and

its applications in a range of disciplines at the tertiary level. Both Year 11 and Year 12 Mathematics

Advanced courses have five topics.

Main Topics Covered

Year 11

Topic: Functions

- Working with Functions

Topic: Trigonometric Functions

- Trigonometry and Measure of Angles
- Trigonometric Functions and Identities

Topic: Calculus

- Introduction to Differentiation

Topic: Exponential and Logarithmic Functions

- Logarithms and Exponentials

Topic: Statistical Analysis

- Probability and Discrete Probability Distributions

HSC Course

Topic: Functions

- Graphing Techniques

Topic: Trigonometric Functions

- Trigonometric Functions and Graphs

Topic: Calculus

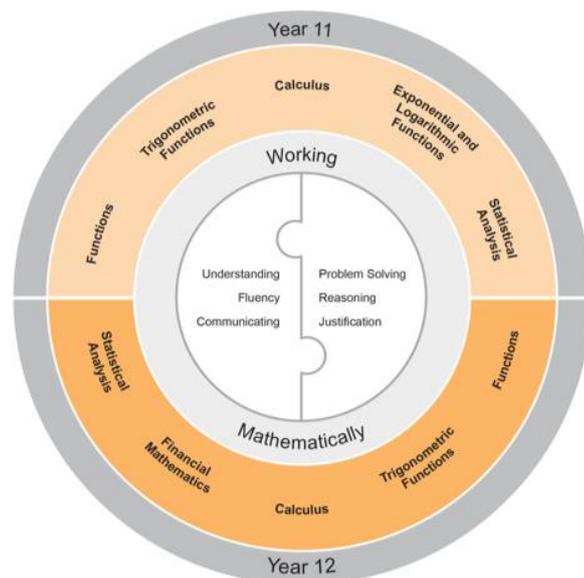

- Differential Calculus
- The Second Derivative
- Integral Calculus

Topic: Financial Mathematics

- Modelling Financial Situations

Topic: Statistical Analysis

- Descriptive Statistics and Bivariate Data Analysis
- Random Variables

Course Expectations and Requirements

- The course is 240 mandatory hours over Years 11 and 12.
- The Mathematics Advanced course is a calculus based course focused on developing student awareness of mathematics as a unique and powerful way of viewing the world to investigate order, relation, pattern, uncertainty and generality.
- Homework/Study is expected to be completed as required by teachers to support classroom learning. This course requires commitment to regular homework and study routines.
- The following equipment is required: a scientific calculator. Calculators are available from the school for \$25.

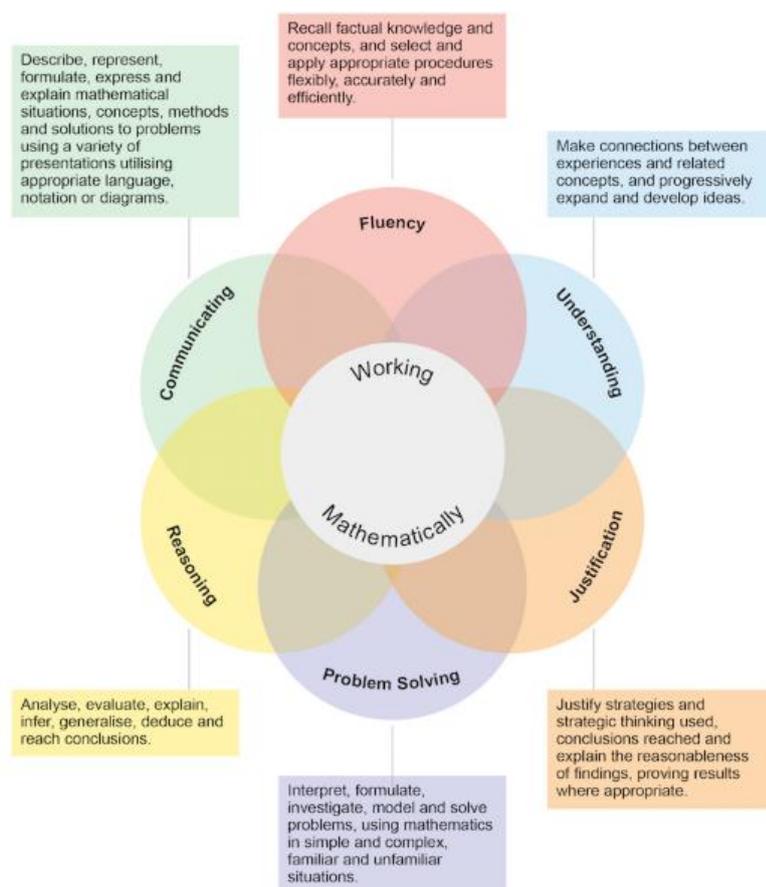

Exclusions

Students may **not** study the Mathematics Advanced course in conjunction with the Mathematics Standard 1 or the Mathematics Standard 2 course.

HSC Exams

Year 12 Mathematics Advanced is an ATAR course. All students studying the Mathematics Advanced course will sit for an HSC examination. There is some common content with the Mathematics Standard 2 and Standard 1 courses which will be examined in the HSC.

Course Fee: There is no fee attached to this course.

Mathematics Extension 1

Board Developed Course Category A - 1 Unit

Contact Person: Ms Janelle Collins

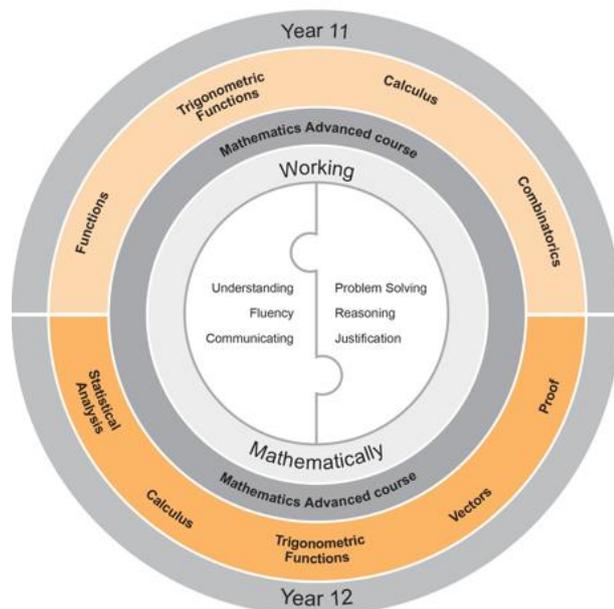

Prerequisites

The [Mathematics Extension 1](#) Year 11 course has been developed on the assumption that students have studied the content and achieved the outcomes of the NSW *Mathematics Years 7–10 Syllabus* and, in particular, the content and outcomes of all substrands of Stage 5.1, Stage 5.2 and Stage 5.3, including the optional substrands; polynomials, logarithms, functions and other graphs and circle geometry.

Course Overview

The [Mathematics Extension 1](#) Year 11 course includes the Mathematics Advanced Year 11 course. The Mathematics Extension 1 Year 12 course includes the Mathematics Advanced Year 12 course. The course is a recommended minimum basis for further studies in Mathematics as a major discipline at a tertiary level, and for the study of Mathematics in support of the physical and engineering sciences. Students who achieve outstanding success in studying the Preliminary year of this course should consider undertaking Extension 2 in the HSC year.

The [Mathematics Extension 2 Year 12](#) course includes the Mathematics Extension 1 Year 12 course, and therefore also the Mathematics Advanced Year 12 course.

Main Topics Covered

Year 11

Topic: Functions

- Further Work with Functions
- Polynomials

Topic: Trigonometric Functions

- Inverse Trigonometric Functions
- Further Trigonometric Identities

Topic: Calculus

- Rates of Change

Topic: Combinatorics

- Working with Combinatorics

Year 12

Topic: Proof

- Proof by Mathematical Induction

Topic: Vectors

- Introduction to Vectors

Topic: Trigonometric Functions

- Trigonometric Equations

Topic: Calculus

- Further Calculus Skills
- Applications of Calculus

Topic: Statistical Analysis

- The Binomial Distribution

Course Expectations and Requirements

- The course is 120 mandatory hours over Years 11 and 12.
- The Mathematics Extension 1 course is a calculus based course focused on developing student awareness of mathematics as a unique and powerful way of viewing the world to investigate order, relation, pattern, uncertainty and generality.
- This course requires commitment to regular homework and study routines.
- The following equipment is required: a scientific calculator. Calculators are available from the school for \$25.

Exclusions

Students may **not** study the Mathematics Extension 1 course in conjunction with the Mathematics Standard 1 or the Mathematics Standard 2 course.

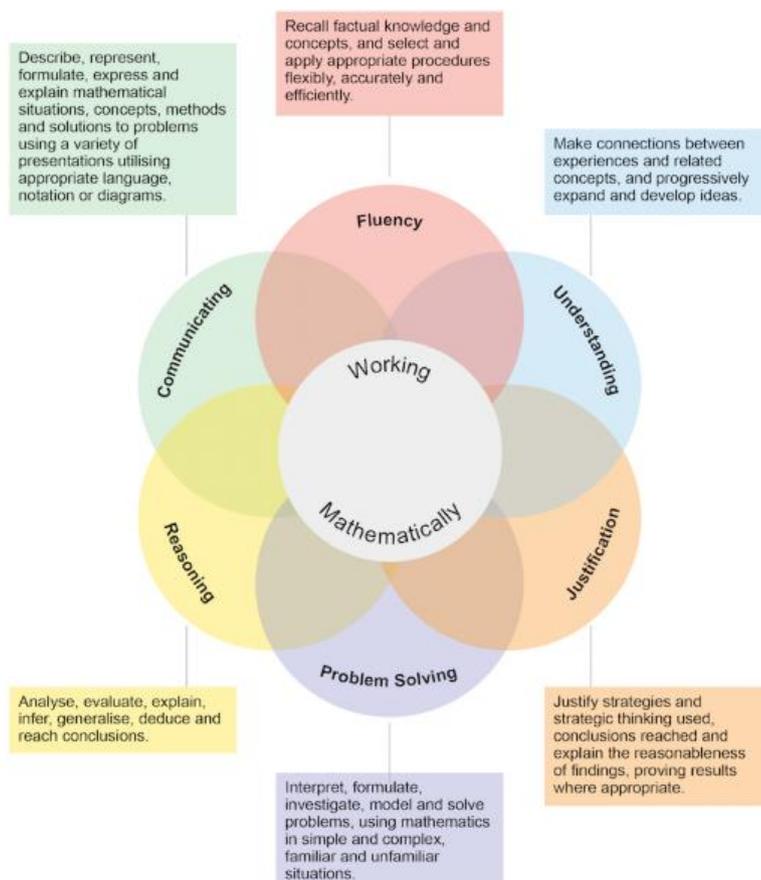

HSC Exams

Year 12 Mathematics Extension 1 is an ATAR course. All students studying the Mathematics Extension 1 course will sit for an HSC examination.

Note:

The information provided here is a guide only. Access more information on the NESA website.

Course Fee: There is no fee attached to this course.

Year 11 Mathematics Standard/Year 12 Mathematics Standard 2 & Standard 1

Board Developed Course Category A - 2 Unit

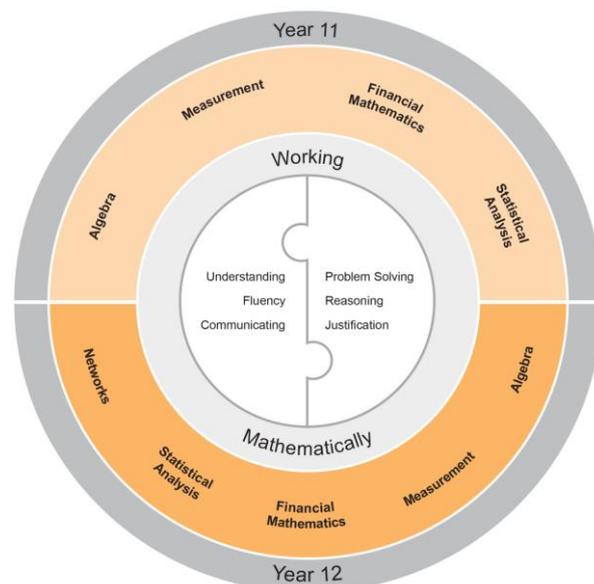

Contact Person: Ms Janelle Collins

Prerequisites

It is assumed that students choosing the Year 11 Mathematics Standard course have studied the content and achieved the outcomes of the Mathematics Years 7–10 Syllabus (2014) up to, and including, the content and outcomes of Stage 5.1 and a number of Stage 5.2 outcomes.

Course Overview

The [Year 11 Mathematics Standard and the Year 12 Mathematics Standard 2 courses](#) are designed to develop knowledge, skills and understanding in areas of Mathematics that are useful in the real world. Students are given opportunities to apply working mathematically skills, communicate ideas and use models to solve problems relating to their present and future needs. These courses provide an appropriate mathematical background for students entering the workforce and/or undertaking further community and workplace training. The Year 12 Standard 2 course also provides a strong foundation for students enrolling in university courses in the humanities, nursing and paramedical sciences. The Year 11 Mathematics Standard course has four topics. The Year 12 Mathematics Standard 2 course has five topics. The year 12 Mathematics Standard 1 course has five topics and provides an elementary level of mathematics.

Main Topics Covered

Year 11

Topic: Algebra

- Formulae and Equations
- Linear Relationships

Topic: Measurement

- Applications of Measurement
- Working with Time

Topic: Financial Mathematics

- Money Matters

Topic: Statistical Analysis

- Data Analysis
- Relative Frequency and Probability

Year 12

Topic: Algebra

- Types of Relationships

Topic: Measurement

- Non-right-angled Trigonometry
- Rates and Ratios

Topic: Financial Mathematics

- Investments and Loans
- Annuities

Topic: Statistical Analysis

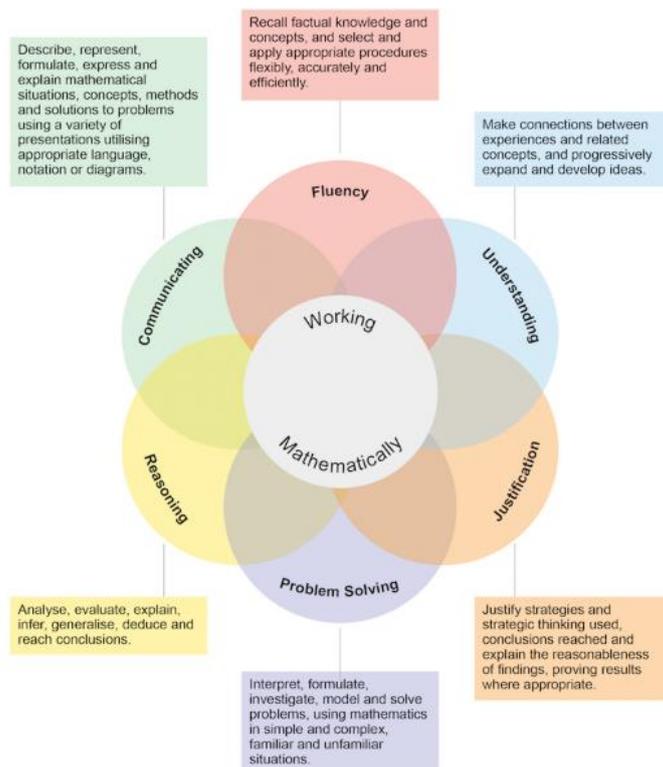

- Bivariate Data Analysis
- The Normal Distribution

Topic: Networks

- Network Concepts
- Critical Path Analysis

Course Expectations and Requirements

- The course is 240 mandatory hours over Years 11 and 12.
- The Year 11 Mathematics Standard course is the **same** Year 11 course that forms part of the Year 11 Mathematics Standard/Year 12 Mathematics Standard 1 pathway.
- Homework/Study is expected to be completed as required by teachers to support classroom learning.
- Competency in mathematics can be developed to support VET, other HSC courses studied and to meet the [HSC Minimum Standard for Numeracy](#) which is equivalent to Level 3 of the [Australian Core Skills Framework](#) (ACSF) in Numeracy
- The following equipment is required: a scientific calculator. Calculators are available from the school for \$25.

Exclusions

Students may not study any other Stage 6 Preliminary Mathematics course in conjunction with the Year 11 Mathematics Standard course, or any other Stage 6 HSC Mathematics course in conjunction with the Year 12 Mathematics Standard 2 course.

HSC Exams

All students studying the Mathematics Standard 2 & Standard 1 course will sit for an HSC examination. There is some common content with the Mathematics Advanced course which will be examined in the HSC from 2020.

Note:

Students studying the Mathematics Standard syllabus undertake a common course in Year 11. For the Year 12 course students can elect to study either Mathematics Standard 1 or Mathematics Standard 2. The information provided here is a guide only. Access more information on the NESA website.

Course Fee: There is no fee attached to this course.

Music 1

Board Developed Course Category A - 2 Unit

Contact Person: Mr Scott Harrison

Prerequisites

Students undertaking this course are required to:

- Demonstrate musical proficiency ie: play an instrument
- Be comfortable to perform in front of an audience
- Priority may be given to students who have previously studied Music in Stage 5.

Course Overview

In the Preliminary and HSC courses, students study the concepts of music through learning experiences in performance, composition, musicology and listening. Students study three topics in each year of the course. Topics are chosen from a list of 21 which cover a range of styles, periods and genres including rock, pop and technology.

This is a course for students with a serious interest in music. There is an emphasis on practical music making, both instrumental and vocal.

Main Topics Covered

Preliminary

The Year 11 course consists of core modules

- **Module: Performance**
- **Module: Composition**
- **Module: Musicology**
- **Module: Listening (aural)**

HSC Course

The Year 12 course consists of three electives from any combination of:

- **Module: Performance**
- **Module: Composition**
- **Module: Musicology**

Course Expectations and Requirements

Students selecting Composition electives will be required to compile a portfolio of work as part of the process of preparing a submitted work. The portfolio may be requested by the Board of Studies to validate authorship of the submitted work.

Course Fee: \$20

Personal Development/Health/Physical Education

Board Developed Course Category A - 2 Unit

Contact Person: Aaron Davis

Prerequisites

- Successful completion of the 7 – 10 PDHPE course
- A,B or C grades in English, Science and PDHPE
- Physical Activity and Sport Studies elective would be beneficial but not required.

Course Overview

This course is an academic course which covers a wide range of issues that underpin health and physical activity in our society. There is an emphasis in the course on the knowledge, skills and attitudes to healthy living and individual lifestyles. It is possible for students to do both the 2 unit PD/H/PE course and the 2 unit Sport, Lifestyle and Recreation Studies Course.

Main Topics Covered

Preliminary

Core topics:

- Better health for individuals
- The body in motion

Optional components:

- First aid
- Composition & performance
- Fitness choices
- Outdoor recreation

HSC Course

Core topics:

- Health priorities in Australia
- Factors affecting performance

Optional components:

- The health of young people
- Sports & physical activity in Australian society
- Sports medicine
- Improving performance
- Equity & health

Course Expectations and Requirements

The course expectations and requirements are for students to display a genuine interest in health topics and it would be beneficial if they had some experience in sports. They need to be committed to their studies and have a strong ability to learn content and complete extended response questions.

Course Fee: There is no fee attached to this course.

Physics

Board Developed Course Category A - 2 Unit

Contact Person: Mrs Katherine Elphick

Prerequisites

- Completion of 7-10 Science
- Completion of VALID Stage 5 - average A - B grade (recommended)
- Completion of Year 10 Student Research Project

Course Overview

The Year 11 course develops student's knowledge, understanding and skills relevant to the study of motion, how we describe it and what causes it. The course also examines energy in its different forms and how we describe and measure electricity and magnetism and their interrelated effects.

The Year 12 course provides avenues for students to apply the concepts they were introduced to in Year 11 to motion in two dimensions, electromagnetism, theories of light, the atom and the Universe.

This is a course for those students with a strong interest in Science or for those that need a 2 Unit Science course for University entrance. Students selecting this course need a strong Mathematics and Science background. This course has extensive practical work to support conceptual understanding.

Main Topics Covered

Preliminary

The Year 11 course consists of four modules

- **Module 1** Kinematics
- **Module 2** Dynamics
- **Module 3** Waves & Thermodynamics
- **Module 4** Electricity & Magnetism

HSC Course

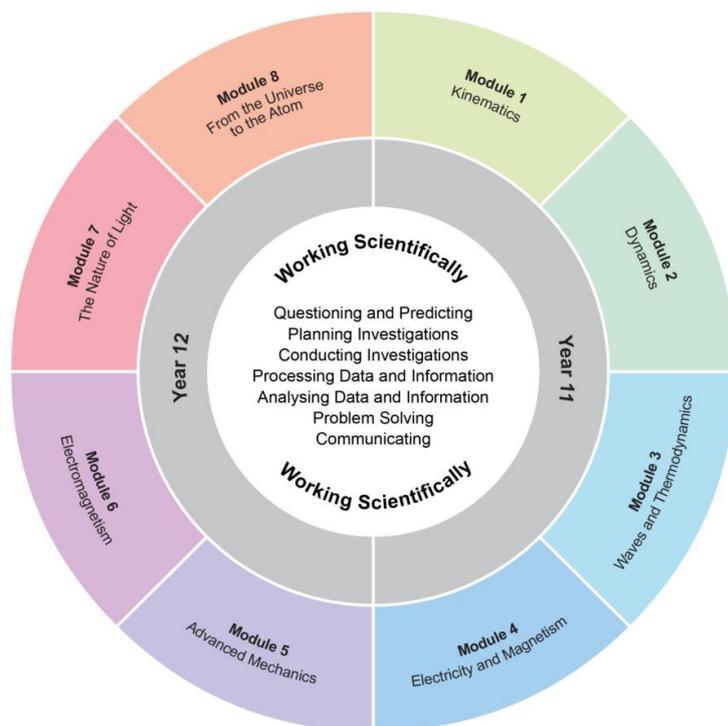

The Year 12 course consists of four modules

- **Module 5** Advanced Mechanics
- **Module 6** Electromagnetism
- **Module 7** The Nature of Light
- **Module 8** From the Universe to the Atom

Course Expectations and Requirements

Students are provided with 15 hours of course time for Depth Studies in both Year 11 and Year 12. During this time students may undertake an investigation/activity that allows for the further development of one or more scientific concepts.

A Depth Study may be one investigation/activity or a series of investigations/activities. Depth Studies may be included in one module or across several modules.

Practical investigations are an essential part of the Year 11 and Year 12 courses and must occupy a minimum of 35 hours of course time each year.

Students are expected to engage in their own time in the Edrolo Online Study tool, conduct interest based research and read scientific articles to broaden their scientific understanding and support their learning.

Course Fee: \$20.00

Certificate III in Retail

Vocational Education & Training (VET) Course Category B - 2 Unit

Contact Person: Mr Robert Oczos

Prerequisites

- VET Enrolment Form
- USI Number

Course Overview

Retail provides students with the opportunity to gain a range of skills suitable for employment in the retail industry and to provide pathways for further study including TAFE. Students who are assessed as competent will be eligible for a SIR30216 Certificate III in Retail.

Wagga Wagga RTO 90333

SIR30216 Certificate III in
Retail

**70 HOURS of work placement
MANDATORY**

The retail industry involves

- Communication skills
- Safe work practices
- Customer service
- Routine procedures in the retail sector
- Stock control
- Designing and creating displays
- Skills in using
 - ✓ Cash registers
 - ✓ Scanners
 - ✓ Computers
 - ✓ Telephones

Potential occupations include

- Sales assistant
- Customer service representative
- Checkout operator
- Stock controller
- Sales manager
- Small business owner
- Marketing manager
- Department manager
- Retail executive

Course Expectations and Requirements

- Competency Based Assessment
- Board Developed Course Category B status for Australian Tertiary Admission Rank (ATAR)
- **70 hours of Work Placement *MUST* be completed to meet the requirements of the HSC**

Course Fee: There is no fee attached to this course.

Please Note: *Only one category B subject can be used towards an ATAR calculation.*

SIR30216 Certificate III in Retail

Entry Requirements:

Students must complete a VET Enrolment Form and supply their USI before the commencement of any training and assessment. Foundation skills may be accessed using the LLN Robot to determine the language, literacy and numeracy suitability of a student for this course.

Course: Retail Services (240 indicative hours)

4 Preliminary and/or HSC units in total

Board Developed Course

Category B status for Australian Tertiary Admission Rank (ATAR)

Students must complete a minimum of 70 hours of work placement to meet the requirements of the HSC.

Course Description This curriculum framework course is accredited for the HSC and provides students with the opportunity to obtain nationally recognised vocational qualifications. This is known as dual accreditation. Students will gain skills in communication, safe work practices, customer service, retail technology, stock control, teamwork, designing and creating displays, using cash registers, scanners, computers, telephones and routine work activities within the retail sectors. Occupations in the retail services industry include sales assistant, customer service representative, checkout operator, buyer, stock controller, sales manager, visual merchandise, marketing manager, manager /owner of a small business, department manager and retail executive.

Core Units of Competency

- SIRXCEG001 Engage the customer
- SIRXWHS002 Contribute to workplace health and safety
- SIRXRSK001 Identify and respond to security risks
- SIRXSLS001 Sell to the retail customer
- SIRXIND001 Work effectively in a service environment
- SIRXCOM002 Work effectively in a team
- SIRXCEG002 Assist with customer difficulties
- SIRXCEG003 Build customer relationships and loyalty

Elective Units of Competency

- SIRRMER001 Produce visual merchandise displays
- SIRXPDK001 Advise on products and services
- SIRRINV001 Receive and handle retail stock
- SIRRINV002 Control stock
- SIRXIND002 Organise and maintain the store environment
- SIRXSLS002 Follow point-of-sale procedures

Students may apply for recognition of prior learning or be granted credit transfer provided suitable evidence is submitted. Support services may be available to meet needs of individual students.

Qualifications

Students who are assessed as competent in the above units of competency will be eligible for a SIR30216 Certificate III in Retail Services. Students who do not achieve competency in all the above units and achieve at least one unit of competency will be eligible for a Statement of Attainment towards SIR30216 Certificate III in Retail Services.

Competency-based Assessment: Students in this course work to develop the competencies, skills and knowledge described by each unit of competency. To be assessed as competent a student must demonstrate to a qualified assessor that they can effectively carry out tasks to industry standards. Students will be progressively assessed as 'competent' or 'not competent' in individual units of competency.

N Determinations: Where a student has not met NSW Education Standards Authority (NESA) course completion criteria, including meeting the mandatory work placement requirement, they will receive an "N" determination (course not satisfactorily completed). The course will not count towards the HSC although units of competency achieved will count towards an Australian Qualifications Framework (AQF) qualification.

External Assessment (optional HSC examination): Students completing this course are eligible to sit a written HSC examination which may be used in the calculation of an ATAR. The examination is independent of the competency-based assessment undertaken during the course and has no impact on the eligibility of a student to receive an AQF VET qualification.

Complaint or Appeals: Students may lodge a complaint or appeal regarding assessment decisions through their VET trainer.

Resources costs: No Cost

Refund Arrangements: on a pro-rata basis

Delivery Arrangements: 9 periods per fortnight

Exclusions: Course exclusions apply to students undertaking beauty, hairdressing and retail services courses. Refer to NESA Stage 6 VET Board Endorsed course description. Where recognition of prior learning (RPL)/credit transfer (CT) is applied to a unit of competency based on achievement of another unit of competency within this same course, the indicative hours for the unit achieved through RPL/CT would not contribute to HSC credit.

A school-based traineeship is available in this course, for more information: <http://www.sbatinnsw.info/>

Sport, Lifestyle and Recreation

Content Endorsed Course (CEC) that cannot be used in the calculation of an ATAR

Contact Person: Aaron Davis

Prerequisites

- Successful completion of the 7 – 10 PDHPE course
- Physical Activity and Sport Studies elective would be beneficial but not required.

Course Overview

This is a course designed for students of all ranges of sporting ability. Emphasis is on lifetime recreation and leisure activities. Studies include body and motion, history of sport, healthy lifestyles, outdoor recreation, fitness, coaching, training, first aid and sports injuries. Students who wish to participate in low impact physical activity and recreation pursuits.

Main Topics Covered

- Sports administration
- Sports coaching and training
- Resistance training
- Fitness
- Healthy lifestyle
- Individual games & sports applications

The course aims to:

- Develop an awareness of social and community values in the areas of sport, lifestyle and recreation.
- Promote an understanding of the requirements of healthy living.
- Develop a deeper understanding of the interaction between society, sport, recreation and fitness.
- Identify how sport influences and affects various groups and sections of our society.
- Provide students with a greater understanding of their physical and sporting potential.

Course Expectations and Requirements

The course expectations and requirements are for students to display a genuine interest in sports. They need to be able to demonstrate an enthusiastic attitude towards their participation in a wide range of physical activities as well as assist in the organisation of these activities.

Course Fee: \$10 per year

Visual Design

Content Endorsed Course (CEC) that cannot be used in the calculation of an ATAR - 2 Unit

Contact Person: Ms Bridgette Evitt

Prerequisites:

Students undertaking this course would benefit from having a genuine interest in an artistic practical based subject that requires creative flair. A variety of different art materials and mediums will be used depending on student interest.

Course Overview

This course provides students with opportunities to explore the links between art and design by designing and making images and objects in which aesthetic qualities and symbolic meanings are as important as utilitarian function.

It encourages students to explore the practices of graphic, wearable, product and interior/exterior designers in contemporary societies and promotes imaginative and innovative approaches to design within the context of the Australian environment and culture.

Main Topics Covered:

Modules may be selected in any of the four broad fields of:

- graphic design
- wearable design
- product design
- interior /exterior design.

The additional module Individual/Collaborative Project extends students' learning experiences and may reflect students' increasing interests and desire to specialise in one or more of these fields or explore the connections further between the fields. The Occupational Health and Safety Module is mandatory in any course.

Course Expectations and Requirements

Students are required to keep a diary throughout the course and participate in all assessment requirements that assist in developing the individual student's Body of Work.

Course Fee: \$20.00 per Term

Visual Arts

Board Developed Course Category A - 2 Unit

Contact Person: Ms Bridgette Evitt

Prerequisites

Students undertaking this course would benefit from having a genuine interest in the Visual Arts and for the student who wishes to develop their artist skills for further education and career options, including study at University.

Course Overview

Visual Arts involves students in art-making, art criticism and art history. Students actively engage in art making whilst exploring a variety of art forms and concepts. Students also learn how to interpret and write about artworks while whilst investigating artists, art movements, critics and historians.

Students will develop a body of work showcasing technical and conceptual refinement and complete course work that will prepare them for a formal written HSC paper.

Main Topics Covered

Preliminary

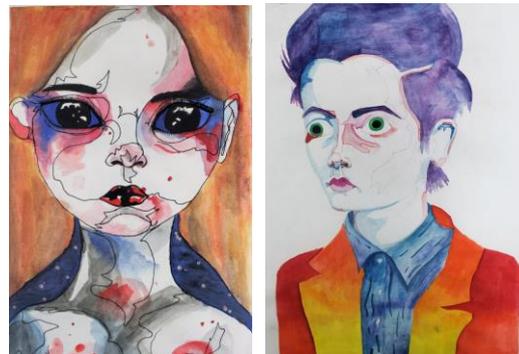

The Year 11 course consists:

- The Art Making Process: Developing a Body of Work
- 2 Dimensional Drawing & Painting
- 3 Dimensional Sculptures
- Diary Work
- Historical and critical study of artists and artwork, from a variety of periods of time. To develop an understanding of the art frames and the conceptual framework

HSC Course

The Year 12 course consists of:

- Art making: producing a body of artworks
- Evidence of art making and critical study in a visual arts diary
- 5 Case studies of artists and artworks
- Writing historical and critical responses including essays

Course Expectations and Requirements

Students produce a body of artwork. Students are to document all course work in a visual arts diary. Demonstrate Historical and Critical art knowledge through essays, research tasks and examinations.

Course Fee: \$50 in Year 11 and \$50 in Year 12.

Work Studies

Content Endorsed Course (CEC) that cannot be used in the calculation of an ATAR

Contact Person: Mr Robert Oczos

Prerequisites

- NA

Course Overview

As the world of work and post school options have broadened and become more complex, students need to be better equipped to make informed decisions about their future. Work Studies is designed to achieve this goal.

It assists students to recognise the links between education, training, work and lifestyle and the technological, economic and social factors that affect work. It develops student skills in accessing work related information, presenting themselves to potential employers and functioning effectively in the work place. Being generic rather than industry specific, Work Studies provided a framework within which students may explore several areas of vocational interest.

For whom this subject is intended:

All students opting for the vocational strand should choose this as a “compulsory” subject. It assists students to gain knowledge, skills, values and attitudes which facilitate the transition to work. Work plays a central role in our lives and an awareness of the issues and concepts relating to the world of work and the acquisition of work related skills is valuable for all students.

Main Topics Covered

Preliminary

- Two compulsory modules: Work and Change, Experiencing Work
- Work Project or Work Placement
- Range of option modules: career planning, work issues, understanding business, workplace rights and responsibilities
- WHS and senior First Aid certificates
Writing a resume, preparing for a job application and interview

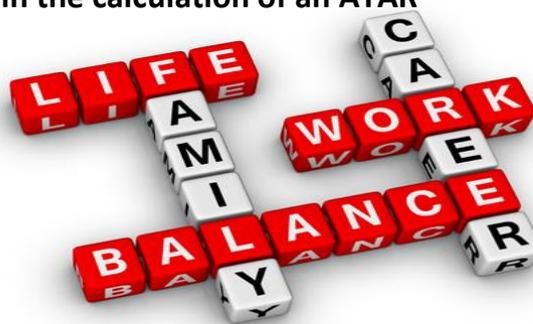

HSC Course

- Two compulsory modules: Work and Change, Experiencing Work
- Resume update, advanced job seeking skills including interview workshop
- Work and its effects on our lifestyle
- Work and Equity Issues
Range of option modules: job seeking, self employment, workplace communications, job networks, support services

Course Expectations and Requirements

Students must complete a work project or work placement, a senior first aid certificate and an OHS credential. Participation in a VET/ EVET/ SBAT course does lead to exemptions. All students will participate in excursions to industry, TAFE, private providers and support agencies.

Course Fee: There is no fee attached to this course

Externally Delivered Vocational and Education Training (EVET)

What is EVET?

EVET gives students the opportunity to study external courses outside of school as part of their HSC. EVET courses usually contribute 2 units towards the HSC.

Who provides EVET courses?

Private providers are responsible for running EVET Courses. TAFE, ACBC and ITeC are examples of organisations that run EVET courses for students in the Illawarra. There are also many more private providers.

What are courses are available?

Please be aware that all courses that are advertised by providers are **PROPOSED**, that is they may not run. You can find courses at the following:

- TAFE NSW
- ITeC
- ACBC website
- Kiama Community College
- Fusion Training Solutions
- There are also other providers in the Illawarra

Please see the Careers adviser for course flyers and information on courses. Please note TAFE will be available to speak to you at the subject selection evening.

Why EVET and how is EVET different to school?

TAFE and other private providers have an adult learning environment. You will need to show commitment, both in terms of attendance and attitude to learning.

How will an EVET course benefit you?

EVET courses are designed to lead to higher level courses. You will have an opportunity to obtain advanced standing and/or continuing student status on successful completion of your study. EVET courses will enhance your entry into the labour market.

Will you get a Certificate at the end of the course?

EVET students may receive two sets of credentials at the end of their course. If you meet the Board of Studies HSC requirements, the EVET course will be included on your HSC Certificate. If you meet the EVET requirements you will receive a testamur from the registered training organisation.

What is required of EVET students?

Students are required to:

- arrive on time and remain until the conclusion of the class.
- attend class regularly.
- bring the necessary books and/or equipment and/or clothing to class.
- comply with OH&S practices.
- sit for assessments on the nominated date or seek approval to extend the due date.
- Hand in all assignments by the due date or seek approval to extend the due date.
- plan activities so that EVET study, school study and other activities can be achieved.
- follow written and spoken directions.
- stay on task.
- treat other students and staff with respect and courtesy.
- refrain from inappropriate behaviour such as swearing, littering, harassment, stealing, damaging or misusing property, and/or being under the influence of drugs or alcohol.

If your behaviour prevents others from learning you will be disciplined according to the RTO's regulations and student discipline policies. Your school will be notified and, at the school's discretion, your parents will be informed. Failure to respond to feedback regarding unacceptable behaviour may result in your suspension from either the class or the course.

Student Responsibilities

If you have an accident or suffer any kind of injury while on Campus, you must let your teacher or the Head Teacher know immediately. Staff will organise the necessary First Aid or medical help and will help you complete an accident form.

What do you wear to EVET courses?

You do not have to wear your school uniform but you must dress appropriately. Specifically: if you have been provided with special clothing and/or footwear or other personal protective equipment (PPE), it must be worn, as directed, with exception. Thongs are not permitted.

How often do you attend EVET?

Most EVET courses are scheduled to run from one afternoon per week, up to one full day per week. This allows students the opportunity to make full use of workshops and to ensure that course content is thoroughly covered. Punctuality and attendance should be given the highest priority.

Equipment and Books

You need to provide your own writing materials. The training organisation provides all equipment, materials, protective clothing, module notes and texts for students. You should expect to be given homework. The amount of work to be completed outside the classroom varies across courses. When you are not given set homework, make sure you read over your class notes before you attend the next class. Progressive reading and revision of previously learned material will enhance your course outcomes.

How do you apply?

Expressions of Interest forms are available from the Careers Adviser and must be returned by the 6th of September, 2019 (Term 3).

Forms must be completed and signed by the student, the parent/caregiver and the school before being given to your Careers Advisor. Students are offered places in courses on the basis of satisfying the following criteria:

- level of ability including pre-requisite skills which indicates a capacity to succeed in the course.
- application to studies, maturity and suitability for an adult learning environment.
- high level of interest in the proposed course demonstrated through, for example, interests or commitment to completing the course.
- a good school attendance record.

Students with Disabilities

Students with a disability are encouraged to participate in EVET. To be considered as a student with a disability, the school must complete a Confirmed Disability Sheet on behalf of the student.

More Information

See the Careers Advisor or EVET Co-ordinator at your school who will be able to provide more information about specific courses offered in your local area.

Part-time school-based apprenticeships and traineeships

What is a School Based Apprenticeship/Traineeship?

School-based apprenticeships and traineeships allow high school students - typically Years 11 and 12 - to work with an employer as a paid employee one day per week whilst studying for their HSC and a vocational qualification. A school based traineeship combines paid work, training and school. Part-time traineeships in schools provide senior secondary students with three qualifications:

- a nationally recognised VET qualification under the Australian Qualifications Framework (AQF)
- a Certificate of Proficiency on satisfactory completion of the traineeship
- credit toward the Higher School Certificate (HSC).

A school based traineeship can give you a head start in your career, a head start in an apprenticeship/traineeship and a head start at TAFE.

Getting Started

To start a school-based apprenticeship or traineeship, you must have an employer and have the support of your parent or guardian, and your school. You and your parent or guardian need to sign a training contract with your employer. You need to talk to your school about how work and training for the apprenticeship or traineeship will fit in with your school timetable.

Traineeships Available

Before making a decision, you should think about the type of environment you would like to work in (for example, outdoors, in an office) and the things that interest you. School Based Traineeships are available in a wide range of industry areas such as:

Automotive, Business Services, Childcare, Retail, Hospitality, Horticulture, Sport & Recreation, Transport and Distribution.

Further Information

For further information on completing a traineeship as part of your Higher School Certificate (HSC) can be obtained from the *School-Based Apprenticeships and Traineeships in NSW* website: <http://www.sbatinnsw.info/> or the Careers Adviser.
